Introduction by the Minister

Taxation Statistics provides an in-depth profile of the Canadian taxpaying public through an analysis of data from the individual income tax returns filed each year. The 1981 edition contains statistics compiled from over 14.5 million income tax returns filed for the 1979 taxation year.

Taxation Statistics continues to serve as a valuable resource document for economists, researchers and others in federal and provincial governments, private organizations and the academic community.

HON. WILLIAM ROMPKEY

Avant-propos du Ministre

Chaque année, **Statistique fiscale** présente un profil détaillé de l'ensemble des contribuables canadiens grâce à une analyse des déclarations d'impôt des particuliers. Les données de l'édition de 1981 sont basées sur les 14.5 millions de déclarations d'impôt qui ont été produites pour l'année fiscale 1979.

Statistique fiscale est un excellent ouvrage de référence pour enseignants, économistes et chercheurs. Il est aussi très apprécié au sein des gouvernements fédéral et provinciaux et d'organismes privés.

Introduction by the Deputy Minister

The individual statistics in Part 1 of this book are based on a stratified random sample of 1979 individual income tax returns. For this edition, all returns processed up to December 31, 1980 were subject to sampling and are represented in this analysis. The deadline for the filing of these returns, without penalty, was April 30, 1980.

Part 1 of the book consists of two types of tables: summary tables of condensed data for selected cities, income classes, occupations and age groups; and basic tables of individual statistics.

Part 2 contains data on all returns by counties, census divisions, and selected localities and other geographical information.

Part 3 includes historical tables indicating taxes collected, the cost of administration on an annual basis from 1939-40 through the fiscal year 1979-80, and the historical statistics for identical individuals, formerly contained in Part 1. Additional miscellaneous data are also included in Part 3.

A description of the statistical systems (sampling, coding etc.) and various items included in the statistics is at the front of each Part.

Facsimiles of the 1979 tax returns are included in an appendix at the back of the book.

Avant-propos du Sous-Ministre

Les statistiques sur les particuliers contenues dans la Partie 1 de cette publication proviennent d'un échantillonnage stratifié prélevé au hasard des déclarations d'impôt sur le revenu de 1979. Toutes les déclarations qui avaient été traitées au 31 décembre 1980 font partie de cette analyse. La date de production de ces déclarations sans pénalité était le 30 avril 1980.

La Partie 1 de cet ouvrage comprend deux types de tableaux: des tableaux récapitulatifs de données condensées présentés par villes, par catégories de revenu, par occupations et par groupes d'âge, et des tableaux de base où figurent des statistiques sur les particuliers.

La Partie 2 renferme des données sur toutes les déclarations selon le comté, la division de recensement et certaines localités. Cette partie contient aussi d'autres renseignements présentés par régions géographiques.

La Partie 3 renferme des tableaux historiques faisant état des impôts perçus et des frais d'administration annuels engagés depuis 1939-1940 jusqu'à l'exercice financier 1979-1980. On y trouve aussi des statistiques historiques de la même nature que celles contenues dans la Partie 1. Diverses autres données ont aussi été incluses dans la Partie 3.

Au début de chaque partie se trouve une description des méthodes statistiques utilisées (échantillonnage, codage, etc.) et des différents éléments contenus dans ces statistiques.

Des fac-similés des déclarations d'impôt de 1979 sont annexés à la fin de l'ouvrage.

Dear User:

The statistics of this publication have been prepared to provide an indepth analysis of the taxpaying public. In supplement to these statistics, details of the methodology of their collection as well as definitions and descriptions are provided within the text at the beginning of each Part of the book. When using these statistics, please consult the text in order to assist you in your interpretation and analysis.

While Taxation Statistics presents a large portion of the statistics produced by Revenue Canada, Taxation, there are further unpublished tables which provide information by provinces, finer occupation levels, geographical level, etc. These tables serve as an extension to Taxation Statistics and statistics from them are available to users upon request. Should you have requirements for income/tax statistics, not available through this publication, we would be pleased to receive your request, and will make every effort possible to respond to it. In addition, comments and suggestions you have are always appreciated.

A tous nos lecteurs,

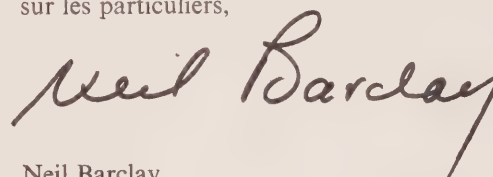

Le rassemblement des statistiques de la présente publication a pour but de fournir une analyse approfondie sur l'ensemble des contribuables. Comme complément aux statistiques, des détails sur la méthodologie de leur collecte, et aussi des définitions et des descriptions, sont intercalés dans le texte au commencement de chaque partie du livre. Pour l'interprétation et l'analyse des données statistiques, vous devez donc consulter le texte correspondant.

Bien que la publication Statistique fiscale présente une grande partie des statistiques rassemblées par Revenu Canada, Impôt, il existe un certain nombre de tableaux supplémentaires non publiés qui renferment des renseignements selon les provinces, une ventilation plus détaillée des occupations, des localités, etc. Ces tableaux complètent la publication Statistique fiscale et sur demande, les lecteurs peuvent en obtenir des statistiques. Si vous avez besoin de statistiques sur l'impôt ou le revenu, non fournies dans la présente, faites-en la demande et nous nous efforcerons d'y répondre. En outre, il nous fait plaisir de recevoir tous commentaires ou suggestions.

Description of Items and 1979 Rate Structure

Statistical Sample and Coverage—An analysis of 1979 Individual Income Tax returns is presented in the Summary and Basic Tables of Part I. The statistics have been compiled from a sample of returns. Several different sampling ratios and limits were used, based on Total Income.

The sample, as in the past, was selected by a sequential count by means of a computer. The sample is stratified using the following five items as characteristics of stratification:

- (1) Source of income: either employment type, self-employment type or investment income.
- (2) Urban Geographic areas: cities with similar population sizes have been grouped within each region, with the result that there are 15 urban groupings throughout the country.
- (3) Rural Geographic areas: for each province or territory those locations not included in an urban grouping are sampled as a single area; thus giving 12 additional sampling areas. One additional grouping is provided for non-resident taxpayers.
- (4) Tax Status: either taxable or non-taxable.
- (5) Income Range: for taxable returns there are four ranges of total income and non-taxable there are three ranges of total income.

These characteristics define $3 \times (13 + 15) \times 7 = 588$ regular strata. Two more strata are provided, one for taxpayers with unusually large incomes and one for taxpayers who for some reason do not fit into the other strata. In these cells, the sampling ratios range from 1:1 to 1:200 with lowest rates of sampling occurring in cells relating to employment type income in dense population areas of the provinces of Ontario and Quebec.

In aggregate, the total number of returns analyzed was 3.2% of the total number processed to Dec. 31, 1980 as shown in the following:

Number of returns in universe.....	14,682,540
Number of returns in the sample.....	476,458

The sampling technique speeds up the analysis of the large volume of returns and has been found to be accurate in overall results; while the same degree of accuracy cannot be expected in very detailed analysis as in larger groups, heavier sampling ratios are applied in sparse areas and classifications in an attempt to strengthen these groups.

Source of Information—The statistical analysis of 1979 returns was conducted at the Taxation Data Centres. The basic information punched on the original assessment cards for the selected sample was supplemented by certain additional items which were transcribed by statistical clerks, punched and later associated with the basic information. The statistics are extracted from returns subsequent to their assessment. A portion of the returns are later re-assessed and any changes resulting from re-assessment are not taken into account in these statistics. The tables were prepared

Description des postes et de la structure des taux de 1979

Échantillonnage et portée statistique—Les tableaux récapitulatifs et les tableaux de base de la Partie I contiennent l'analyse des déclarations d'impôt sur le revenu produites par les particuliers en 1979. Les statistiques ont été dressées d'après un échantillon de déclarations prélevé selon différents pourcentages et différentes limites, fondés sur le revenu total.

Comme par les années passées, l'échantillonnage résulte d'un dépouillement séquentiel effectué par ordinateur. L'échantillon est stratifié et caractérisé par les cinq éléments suivants:

- 1) Source du revenu: revenu tiré d'un emploi, d'un travail autonome ou de placements.
- 2) Régions géographiques urbaines: des villes à population semblable ont été groupées en régions urbaines pour donner 15 groupes urbains dans tout le pays.
- 3) Régions géographiques rurales: pour chaque province ou territoire, les endroits non compris dans les régions urbaines sont compris dans un seul groupe, ce qui donne 12 zones d'échantillonnage supplémentaires. Un groupe additionnel est fourni pour les contribuables non-résidents.
- 4) Statut fiscal: imposable ou non imposable
- 5) Palier de revenu: pour les déclarations imposables, il y a quatre paliers de revenu total et pour les déclarations non imposables, il en existe trois.

Ces caractéristiques ($3 \times (13 + 15) \times 7$) définissent 588 strates régulières. Deux autres strates sont fournies, une pour les contribuables avec des revenus particulièrement élevés et une pour les contribuables qui pour une raison quelconque, ne peuvent être inclus dans les autres strates. Dans ces cellules, les coefficients d'échantillonnage varient de 1:1 à 1:200, les plus bas se situant dans les cellules de revenus tirés d'emplois dans les régions à population dense de l'Ontario et du Québec.

Globalement, le nombre de déclarations analysées constituait 3.2% du nombre total de déclarations traitées jusqu'au 31 décembre 1980, soit:

Nombre de déclarations analysées.....	14,682,540
Nombre de déclarations de l'échantillon.....	476,458

L'échantillonnage accélère l'analyse du grand nombre de déclarations produites et on a constaté qu'il donnait des résultats d'ensemble exacts; bien qu'on ne puisse espérer obtenir dans une analyse détaillée le même niveau d'exactitude que dans le cas de groupes plus importants, un taux plus élevé d'échantillonnage des régions et catégories comprenant peu d'individus tend à augmenter l'importance de ces groupes.

Source de renseignements—L'analyse statistique des déclarations de 1979 a été dressée aux Centres des données fiscales. Les données fondamentales de l'échantillon choisi qui avaient été reportées par perforation sur les fiches initiales de cotisation, ont été complétées par certains renseignements supplémentaires qui ont été transcrits par les employés de la statistique, reportés par perforation et réunis subséquentement aux données fondamentales. Les statistiques sont extraites des déclarations une fois celles-ci vérifiées. Une partie des déclarations fait l'objet d'une nouvelle cotisation

and printed by a computer at the Ottawa Data Centre. The source of the various statistical items is given below.

All forms referred to are for the 1979 taxation year. Two types of individual tax return forms were in use. The T1 Special form was for use by individuals filing only to receive tax credits or whose income was primarily employment income from which only usual deductions could be made. The T1 General form was for use by individuals whose tax affairs were more complicated; those who had self-employment income or capital gains or losses or dividend income; those who had less common deductions such as registered retirement savings plan or registered home ownership savings plan premiums; individuals wishing to claim exemptions for dependants other than a spouse or children or wishing to transfer deductions from their spouse, etc. Various schedules were provided for use by individuals with certain types of income or non-standard exemption claims, etc. Facsimiles of these forms can be found in the Appendix at the back of this book.

Number of Returns (Items 1-3)—This refers to the number of T1 Special and T1 General returns filed for the taxation or calendar year 1979. Final date for filing without penalty was April 30, 1980. No cognizance is taken of second returns filed in amendment of an original. A return is considered "taxable" when a tax is assessed; otherwise a return is "non-taxable".

Wages and Salaries (Item 4)—The amount reported under this heading is the wage or salary income together with taxable allowances and benefits, directors' fees. The required information is the aggregate of amounts shown as "Total Earnings before Deductions", less any Commissions included in Total Earnings plus Directors' Fees. This figure is gross, the allowable expenses of employment being shown as Items 45 and 46.

Commissions from Employment (Item 5)—This item has been identified from the entry on page 1 "Commissions, if any, included in above total (Earnings)". The figure is gross, any allowable expenses claimed as a deduction from such income being included with Items 45 and 46.

Other Employment Earnings (Item 6)—This item consists of adult training allowances, net research grants, tips and gratuities as reported on this line of the return.

Family Allowance (Item 7)—This is the amount of taxable family allowance benefits reported in this area of the return.

Unemployment Insurance Benefits (Item 8)—This is the amount reported under this heading.

Old Age Pension (Item 9)—This is the amount reported as "Old Age Security Pension".

plus tard et on ne tient pas compte de tout changement qui en résulte aux fins de la statistique. Les tableaux ont été préparés et imprimés par un ordinateur au Centre des données fiscales à Ottawa. On trouvera ci-après la source des différents postes statistiques.

Toutes les formules mentionnées concernent l'année d'imposition 1979. Deux genres de déclarations d'impôt sur le revenu des particuliers ont été distribués. La formule T1 Spéciale était destinée aux particuliers qui produisaient une déclaration dans le seul but de demander des crédits d'impôt ou dont les gains provenaient essentiellement d'un revenu d'emploi sur lequel seules les déductions habituelles étaient opérées. La formule T1 Générale était destinée aux particuliers dont la situation fiscale est plus complexe, notamment ceux qui tirent un revenu d'un travail indépendant, de gains ou de pertes en capital ou de dividendes, ceux qui ont droit aux déductions moins courantes comme celles qui visent les contributions à un régime enregistré d'épargne-retraite ou un régime enregistré d'épargne-logement, ceux qui désirent demander une exemption pour personnes à charge autres que le conjoint ou des enfants ou transférer des déductions admissibles au conjoint, etc. Diverses annexes ont été destinées à l'usage de particuliers tirant certains genres de revenu ou réclamant des exemptions non uniformes, etc. Des facsimilés de ces formules figurent à l'appendice dans la dernière partie de ce livre.

Nombre de déclarations (Postes 1-3)—Signifie le nombre réuni des déclarations T1 Générale et T1 Spéciale produites pour l'année d'imposition ou l'année civile 1979. La date ultime de production des déclarations sans encourir de pénalités était le 30 Avril 1980. On n'a pas tenu compte des secondes déclarations produites à titre de modification d'une déclaration initiale. On considère comme déclaration «imposable» celle qui donne lieu à un impôt; autrement, une déclaration est «non imposable».

Salaires et traitements (Poste 4)—Le montant indiqué à ce poste est le revenu tiré de salaires ou traitements augmenté des allocations et prestations imposables et des jetons de présence d'administrateurs. Ce qu'il faut indiquer, c'est le total des montants figurant sous la rubrique «Gains totaux avant déductions» moins toute commission comprise dans les gains totaux plus les jetons de présence d'administrateurs. Il s'agit de chiffres bruts, les dépenses déductibles d'emploi étant comprises aux postes 45 et 46.

Commissions d'emplois (Poste 5)—Ce poste a été tiré de la ligne de la page 1 intitulée «Commissions incluses, s'il y a lieu, dans les (gains) totaux ci-dessus». Il s'agit d'un montant brut, toutes dépenses déductibles réclamées en déduction du revenu étant comprises dans les montants inscrits aux postes 45 et 46.

Autres gains provenant d'un emploi (Poste 6)—Le montant indiqué à ce poste de la déclaration comprend les allocations de formation professionnelle des adultes, le montant net des subventions à la recherche, les pourboires et les gratifications.

Allocations familiales (Poste 7)—Ce poste comprend les allocations familiales figurant sur la déclaration d'impôt.

Prestations d'assurance-chômage (Poste 8)—Il s'agit du montant déclaré sous cette rubrique.

Pension de sécurité de la vieillesse (Poste 9)—Il s'agit du montant déclaré comme «pension de sécurité de la vieillesse».

CPP or QPP Benefits (Item 10)—This is the amount reported on the line “Canada or Quebec Pension Plan benefits”.

Other Pensions or Superannuation (Item 11)—This is the amount reported under this heading and includes all other pension income.

Net Business Income (Item 12)—The net business income is found on page 1 of the return under the heading “Income from Self-Employment”. Gross business income is shown on Table 13.

Net Professional Income (Item 13)—This is the total of amounts shown on page 1 of the return as “Net Professional Income”. Professional income is broadly defined as income received from the independent practice of a profession for profit. Where a professionally qualified person is employed on an annual salary basis by a company, government or institution, the remuneration is classified as “wages and salaries” under item 4. The main sources of professional income may be ascertained by examination of the professional occupations in Table 3. Gross professional income is shown in Table 13.

Net Commission Income (Item 14)—Information for this item has been picked up from page 1. Commission income is shown on a net basis, that is, after the deduction of expenses except in Table 13 where gross commission is also shown.

Net Farming or Fishing Income (Item 15)—The net farming income is found on the line “Farming Income” on page 1 and the net fishing income on the line “Fishing Income” on page 1. Gross farm and fishing income are shown in Table 13.

Taxable Amount of Dividends (Item 16)—This is the actual amount of dividends received from taxable Canadian corporations plus one-half as reported for this type of income on the return. These are before deductions are made for carrying charges. The tax credits applicable to these dividends are shown in Item 61.

Included are amounts designated as “Dividends from taxable Canadian corporations” which form part of the income allocated under an employees’ profit sharing plan, or received from an estate or trust or a personal corporation.

Bond Interest (Item 17)—This item represents amounts specified as bond interest in the Statement of Investment Income (Schedule 4) or Statement of Interest Income (Schedule 4S). Interest on “mortgages, notes, and other securities” is treated as mortgage interest.

Bank Interest (Item 18)—This is the total of all amounts specified as interest on bank or other deposits in the Statement of Investment Income (Schedule 4) or Statement of Interest Income (Schedule 4S). Unspecified interest reported on the return is also entered under this heading.

Prestations du RPC ou du RRQ (Poste 10)—Il s’agit du montant déclaré sous la rubrique «Prestations du Régime de pensions du Canada ou du Régime de rentes du Québec».

Autres pensions et pensions de retraite (Poste 11)—Il s’agit du montant inscrit sous cette rubrique et comprend tout autre revenu tiré de pensions.

À la suite de la réforme fiscale, la structure de l'impôt a été révisée en 1972 de façon à prévoir de nouvelles exemptions personnelles et un nouveau barème de taux. L'impôt de sécurité de la vieillesse et l'impôt de progrès social ont été inclus dans le nouveau barème de taux.

The 1979 rates of federal income tax will be found in Schedule 1 reproduced in the Appendix of this book "Facsimiles of 1979 Individual Income Tax Return Forms".

The provincial and territorial rates as a percentage of basic Federal Tax are as follows:

Newfoundland	58 %
Prince Edward Island	50 %
Nova Scotia	52.5%
New Brunswick	55.5%
Ontario	44 %
Manitoba	54 %
Saskatchewan	53 %
Alberta	38.5%
British Columbia	45 %
Northwest Territories	43 %

The Federal-Provincial Fiscal Arrangements Act continued in effect with provincial taxes calculated as a percentage of Basic Federal Tax. The only abatement is that for Quebec income tax which for persons resident in Quebec amounted to 16.5% of their "Reduced Basic Federal Tax". For those provinces which made agreements under the Federal-Provincial Fiscal Arrangements Act, and on whose behalf the federal government agreed to collect the provincial income tax, a provincial income tax was levied. No provincial income tax was collected by the federal government on behalf of the Province of Quebec which collects its own income taxes. Individuals resident in the Yukon or not resident in Canada are required to add a surtax equal to 43% of their "Reduced Basic Federal Tax" because they are not subject to provincial income tax.

The basic personal exemption was increased from \$2,430 to \$2,650 and the married or equivalent exemption from \$2,130 to \$2,320. Exemptions in effect for 1979 are outlined below.

Persons taxed as single—\$2,650.

Persons taxed as married—\$4,970. This exemption was reduced by the amount by which the income of the spouse exceeded \$430 until the spouse's income exceeded \$2,750 at which point both married person and spouse became taxable as single.

Additional exemption for persons 65 years of age and over—\$1,660.

Children under age 17—\$500 for each child whose net income was not over \$1,750. If over \$1,750 but not over \$2,750, a reduced exemption could be claimed.

Children age 17 or over—\$910 for each child whose net income was not over \$1,840. If over \$1,840, but not over \$2,750, a reduced exemption could be claimed.

Other dependants—These consist of parents, grandparents, brothers or sisters, aunts or uncles resident in Canada. The exemption is limited to the amount spent in support up to a maximum of \$500 for dependants under age 17 and \$910 for dependants age 17 or over.

Le taux de l'impôt fédéral sur le revenu pour 1979 figure à l'Annexe 1, dans la section suivante de la présente brochure, sous la rubrique «Fac-similés de formules de Déclarations d'impôt sur le revenu des particuliers de 1979».

Les taux provinciaux et territoriaux, comme un pourcentage de l'impôt fédéral de base, comme suite:

Terre Neuve	58 %
Île du Prince-Édouard	50 %
Nouvelle-Écosse	52.5%
Nouveau-Brunswick	55.5%
Ontario	44 %
Manitoba	54 %
Saskatchewan	53 %
Alberta	38.5%
Colombie-Britannique	45 %
Territoires du Nord-Ouest	43 %

La Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces a été maintenue en vigueur; les impôts provinciaux sont calculés comme pourcentage de l'impôt fédéral de base. Le seul abattement s'applique à l'impôt sur le revenu du Québec qui, pour les personnes résidant au Québec, s'élève à 16.5% de l'«Impôt fédéral de base réduit». Un impôt provincial sur le revenu a été institué par les provinces ayant conclu un accord en vertu de la Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces et pour le compte desquelles le gouvernement fédéral a accepté de percevoir l'impôt provincial sur le revenu. Aucun impôt provincial sur le revenu n'a été perçu par le gouvernement fédéral pour le compte de la province de Québec, puisqu'elle administre son propre régime de perception. Les particuliers résidant dans le Yukon ou hors du Canada sont tenus d'ajouter une surtaxe égale à 43% de l'«Impôt fédéral de base réduit» parce qu'ils sont exonérés de l'impôt provincial sur le revenu.

L'exemption personnelle de base a été portée de \$2,430 à \$2,650 et l'exemption de marié ou l'équivalent de \$2,130 à \$2,320. Les exemptions en vigueur en 1979 sont exposées ci-après.

Contribuable imposé à titre de célibataire—\$2,650.

Contribuable imposé à titre de marié—\$4,970. Cette exemption subit une réduction égale au montant du revenu du conjoint qui dépasse \$430 mais qui n'est pas supérieur à \$2,750; quand ce revenu excède \$2,750, le contribuable marié et son conjoint deviennent tous deux imposables à titre de célibataires.

Exemption supplémentaire pour les personnes âgées de 65 ans ou plus—\$1,660.

Enfants de moins de 17 ans—\$500 pour chaque enfant dont le revenu net ne dépasse pas \$1,750. S'il est supérieur à \$1,750 mais pas plus élevé que \$2,750, une exemption réduite peut être réclamée.

Enfants de 17 ans ou plus—\$910 pour chaque enfant dont le revenu net ne dépasse pas \$1,840. S'il est supérieur à \$1,840 mais pas plus élevé que \$2,750, une exemption réduite peut être réclamée.

Autres personnes à charge—Ceci comprend les parents, les grands-parents, les frères ou les soeurs, les tantes ou les oncles résidant au Canada. L'exemption est limitée au montant versé pour leur entretien, jusqu'à concurrence de \$500 si ces personnes étaient âgées de moins de 17 ans et de \$910 si elles étaient âgées de 17 ans ou plus.

Description of Basic Tables

GENERAL NOTE:

In all tables, breakdowns with less than ten taxpayers do not show any figures in that breakdown. These figures are, however, included in all subtotals and overall totals.

TABLE 1 — GENERAL STATEMENT BY PROVINCE

This table shows the most significant income and tax statistics by province. The figures for taxable and non-taxable returns are shown both separately and consolidated. *In this table, and only in this table, the allocation of returns by province or territory is on the basis of the province in which the residence of the taxpayer was located on 31st December 1979, as reported on the front of the return except in the case of multiple jurisdiction returns (i.e. returns of business men and professionals who earn income in more than one province) which are handled as all returns in other tables. If the individual filing the return resided outside of Canada on 31st December, his return, in this table, has been included with "Non-residents". In all other provincial tables, the allocation is on the basis of the taxpayer's address at the time of filing. The amounts of Federal Tax Payable, and Provincial Tax Payable, are as assessed.*

TABLE 2 — ALL RETURNS BY INCOME CLASS

In this table all returns are classified according to the size of total income assessed. Under each income class heading there are two columns. The first column indicates the occurrence or number of all returns which had the item in question and the second column indicates the dollar amount involved for the tax returns in the income class. Each income class contains returns with total income starting at the lower limit of the income range up to but not including the upper limit of the range. For example, the income class marked \$1,500 to \$1,750 includes all returns with total incomes of \$1,500 or more up to but not including incomes of \$1,750. Some returns with less than \$2,500 income are taxable which requires an explanation since normally the exemptions are at least \$2,650. This is possible in the case of: (1) returns filed by certain non-residents of Canada in respect of income from Canada which is not subject to personal exemptions; (2) individuals resident in Canada for only a part of a taxation year who are taxed upon income which they earned during their period of residence in Canada with their exemptions prorated to the same period and (3) certain returns which are taxable only in respect of lump sum pension payments which are excluded from the total income under transitional provisions of the Act. No taxable income is reported on such returns and the exemptions may exceed the total income recorded. A small portion of returns in the higher income classes may be classified as non-taxable. This can arise because business or farm losses of earlier years may offset the current year's income, or because of such factors as foreign tax credits, unusual medical expenses, allowable deductions from investment income or gifts to the Crown. For similar data on taxable returns only see Table 2A.

Description des tableaux de base

NOTE GÉNÉRALE:

Dans tous les tableaux, la répartition avec moins de dix contribuables, n'est pas montrée, mais comprise dans tous les sous-totaux et les totaux.

TABLEAU 1 — ÉTAT GÉNÉRAL, PAR PROVINCE

Les éléments les plus importants de la statistique du revenu et de l'impôt sur le revenu par province ont été réunis dans ce tableau. Les statistiques des revenus imposables et des revenus non imposables sont données séparément et globalement. *C'est seulement dans ce tableau que la répartition des déclarations par province se fonde sur la province de résidence du contribuable au 31 décembre 1979, indiquée en première page de la déclaration à l'exception des déclarations à juridictions multiples (p. e. les déclarations des hommes d'affaires et des professionnels gagnant leur revenu dans plus d'une province) lesquelles sont comprises dans toutes les déclarations dans les autres tableaux. Si le contribuable résidait hors du Canada au 31 décembre, sa déclaration aux fins du tableau a été attribuée à «Non-résidents». Dans tous les autres tableaux qui donnent une répartition par province, cette répartition a été faite d'après l'adresse du contribuable à l'époque où il a produit sa déclaration. Les montants d'«impôt fédéral à payer» et d'«Impôt provincial à payer» correspondent aux cotisations établies.*

TABLEAU 2 — TOUTES LES DÉCLARATIONS, PAR CATÉGORIE DE REVENU

Dans ce tableau, toutes les déclarations sont classées d'après l'importance du revenu total établi. Chaque rubrique de catégorie de revenu comporte deux colonnes. La première colonne indique le nombre de déclarations dans lesquelles figurait le poste en question et la seconde, le montant en dollars dont les déclarations dans cette catégorie de revenu faisaient état. Dans chaque catégorie de revenu, le montant du revenu total commence à la limite la plus basse de la catégorie de revenu mais ne comprend pas la plus élevée. La catégorie de \$1 500 à \$1 750, par exemple, comprend toutes les déclarations comportant un revenu total allant de \$1 500 à \$1 749 inclusivement. Certaines déclarations comportant un revenu inférieur à \$2 500 sont imposables, ce qui exige une explication puisque normalement les exemptions sont d'au moins \$2 650. Cela se produit dans les cas où (1) les déclarations produites par certains non-résidents du Canada à l'égard du revenu de provenance canadienne ne comportent pas d'exemptions personnelles; (2) les particuliers qui résident au Canada seulement une partie de l'année d'imposition font l'objet d'une cotisation sur le revenu qu'ils ont gagné pendant la période de résidence au Canada, les réductions étant calculées au prorata pour la même période; et (3) certaines déclarations ne sont effectivement imposables qu'en ce qui a trait à des paiements forfaitaires de pension exclus du revenu total en vertu des dispositions transitoires de la Loi. Aucun revenu imposable n'est indiqué dans ces déclarations et les exemptions peuvent être supérieures au revenu total déclaré. Une faible proportion des déclarations qui se trouvent dans les paliers de revenu les plus élevés peuvent être classées comme non imposables. Cela peut se produire lorsque des pertes commerciales ou agricoles d'années antérieures réduisent le revenu de l'année courante ou lorsque certains facteurs, comme les dégrèvements pour impôts étrangers, les frais médicaux sortant de l'ordinaire ou les réductions admises sur le revenu de placements et le

TABLE 2A — TAXABLE RETURNS BY INCOME CLASS

In this table taxable returns are classified according to the size of total income assessed. Under each income class heading there are two columns. The first column indicates the occurrence or number of taxable returns which had the item in question and the second column indicates the dollar amount involved for the taxable returns in the income class. Each income class contains returns with total income starting at the lower limit of the income range up to but not including the upper limit of the range. For example, the income class marked \$1,500 to \$1,750 includes all returns with total income of \$1,500 or more up to but not including incomes of \$1,750. Some returns with less than \$2,500 income are taxable which requires an explanation since normally the exemptions are at least \$2,650. This is possible in the case of: (1) returns filed by certain non-residents of Canada in respect of income from Canada which is not subject to personal exemptions; (2) individuals residents in Canada for only a part of a taxation year who are taxed upon income which they earned during their period of residence in Canada with their exemptions prorated to the same period and (3) certain returns which are taxable only in respect of lump sum pension payments which are excluded from the total income under transitional provisions of the Act. No taxable income is reported on such returns and the exemptions may exceed the total income recorded. For similar data on all returns see Table 2.

TABLE 3 — ALL RETURNS BY OCCUPATION

In this table all returns are classified according to occupation. Taxable returns and all returns are analyzed in alternate columns. *This classification is based in the main on the taxpayer's method of earning income rather than strictly on the type of work performed.* This procedure has been followed because the source of income has been found to be a systematic and uniform method of classification, whereas the descriptions supplied by many individuals are not uniform.

Professionals as classified here are *self-employed persons with professional fees as their principal source of income.* Professionals earning the major part of their income in the form of salary are classified as employees. As a result, the number of doctors, lawyers, etc. shown here is likely to be less than the number shown in professional directories. The classification "Other professionals" includes such professionals as nurses, osteopaths, chiropractors, surveyors, veterinarians, tax consultants, and investment counsellors. The large employee class has been subdivided according to whether the taxpayer is employed by a business, an institution or a school, or some form of government body. Employees of individuals or farmers and other employees who cannot be included elsewhere, are shown as "unclassified employees". Employees of Crown Corporations are

dons à la Couronne, entrent en ligne de compte. Pour des données semblables concernant uniquement les déclarations imposables, se reporter au Tableau 2A.

TABLEAU 2A — DÉCLARATIONS IMPOSABLES, PAR CATÉGORIE DE REVENU

Les déclarations imposables dans ce tableau sont classées selon l'importance du revenu total établi. Chaque rubrique de catégorie de revenu comporte deux colonnes. La première colonne indique le nombre de déclarations imposables dans lesquelles figurait le poste en question et la seconde, le montant en dollars dont les déclarations imposables dans cette catégorie de revenu faisaient état. Dans chaque catégorie de revenu, le montant du revenu total commence à la limite la plus basse de la catégorie de revenu mais ne comprend pas la plus élevée. La catégorie de \$1 500 à \$1 750, par exemple, comprend toutes les déclarations comportant un revenu total allant de \$1 500 à \$1 749 inclusivement. Certaines déclarations comportant un revenu inférieur à \$2 500 sont imposables, ce qui exige une explication, puisque normalement les exemptions sont d'au moins \$2 650. Cela se produit dans les cas où (1) les déclarations produites par certains non-résidents du Canada à l'égard du revenu de provenance canadienne ne comportent pas d'exemptions personnelles; (2) les particuliers qui résident au Canada seulement une partie de l'année d'imposition font l'objet d'une cotisation sur le revenu qu'ils ont gagné pendant la période de résidence au Canada, les déductions étant calculées au prorata pour la même période; et (3) certaines déclarations ne sont effectivement imposables qu'en ce qui a trait à des paiements forfaitaires de pensions exclus du revenu total en vertu des dispositions transitoires de la Loi. Aucun revenu imposable n'est indiqué dans ces déclarations et les exemptions peuvent être supérieures au revenu total déclaré. Pour des données semblables concernant l'ensemble des déclarations, se reporter au Tableau 2.

TABLEAU 3 — TOUTES LES DÉCLARATIONS, PAR PROFESSION

Toutes les déclarations dans ce tableau sont classées selon la profession. Les déclarations imposables et toutes les déclarations, font l'objet d'une analyse dans des colonnes alternantes. *Le classement des particuliers se fonde surtout sur la façon de gagner le revenu plutôt que sur le genre de travail accompli.* Nous avons adopté cette méthode parce que nous avons trouvé que la source du revenu est une méthode systématique et uniforme de classement, alors que les descriptions qui nous sont fournies par plusieurs particuliers ne sont pas uniformes.

Les professionnels dont il est question ici sont *des personnes établies à leur propre compte dont la source principale de revenu est constituée par les honoraires professionnels.* Les professionnels qui gagnent la plus grande partie de leur revenu sous forme de salaire sont classés comme étant des employés. Ainsi, il est probable que le nombre de médecins, avocats, etc. indiqué ici soit moindre que le nombre qui est indiqué dans le répertoire des professions. La catégorie «Autres professions libérales» comprend les infirmières, ostéopathes, chiropraticiens, arpenteurs, vétérinaires, spécialistes en impôt, conseillers en placements. La vaste catégorie des employés a été subdivisée selon que le contribuable est au service d'une entreprise commerciale, d'une institution ou école ou d'une forme quelconque

shown as employees of businesses rather than as government employees. The classification "Teachers and professors" excludes non-teaching employees of schools and colleges. The classification "Salesmen" includes only those reporting "Commission Income from Self-Employment" as their principal source of income. Business proprietors or partners, with or without employees, are subdivided according to the type of business. A proprietor who conducts two different types of business is classified to the type which has the larger gross. Individuals who derive the bulk of their income from the rental of real estate are shown as "property owners". "Unclassified" includes those whose principal source of income is alimony or certain miscellaneous types of incomes such as hunters, trappers and guides.

TABLE 4 — ALL RETURNS BY AGE AND SEX

In this table all returns are classified by five year age groups, beginning with "under 20" and running to "65 and over", and within each of these groups by sex. Taxable returns and all returns are analyzed in alternate columns. This age classification is based upon information on the front of the return as to date of birth. A number of returns were received which lacked information as to age and these are not analyzed separately but are included in the Grand Total. A more detailed age analysis is shown in Tables 9 and 9A.

TABLE 5 — ALL RETURNS BY CITIES OR PLACE OF RESIDENCE

In this table, all returns are classified according to the address on the return at the time of filing. Taxable returns and all returns are analyzed in alternate columns. Cities which are defined as metropolitan areas are in accordance with definitions employed in the 1976 census, except that they do not include areas in adjacent counties but only within the county or Census Division in which they are mainly situated. In a few instances the census metropolitan area has been subdivided, namely, Halifax and Dartmouth, Quebec and Levis, Ottawa and Hull, Vancouver and New Westminster. This detailed analysis is only available for those centers in each province which are shown on the table. Where taxpayers reside outside the specifically covered localities they have been included under the caption "Other Areas" within the province concerned. An income breakdown of the number of returns for each city shown in this table will be found in Table 1, Part 2. In this table it will be noted that some Provincial Tax Payable is shown for residents of Quebec Province, although the Federal Government does not collect Provincial Income Tax on behalf of Quebec

d'organisme gouvernemental. Les employés au service des particuliers et de cultivateurs, de même que les autres employés ne pouvant être inclus dans aucune autre catégorie, figurent parmi les «Employés non classés». Les employés des sociétés de la Couronne sont classés comme employés d'entreprises commerciales et non comme employés de l'État. La catégorie «Instituteurs et professeurs» ne comprend pas les non-enseignants au service d'écoles et de collèges. La catégorie «Vendeurs» ne comprend que ceux qui déclarent un «Revenu de commissions provenant d'un travail autonome» comme principale source de revenu. Les propriétaires ou associés d'entreprise, ayant des employés ou non, sont subdivisés selon le genre d'entreprise. Le propriétaire qui exerce deux genres différents d'entreprise est classé selon le genre de l'entreprise qui rapporte le plus fort revenu brut. Les particuliers dont la majeure partie du revenu provient de la location de propriétés immobilières sont indiqués sous le titre «Propriétaires». La catégorie «Non classés» comprend ceux dont la principale source de revenu est représentée par une pension alimentaire ou ceux qui touchent divers genres de revenu, par exemple les chasseurs, les trappeurs et les guides.

TABEAU 4 — TOUTES LES DÉCLARATIONS, PAR ÂGE ET SEXE

Dans ce tableau, toutes les déclarations sont réparties par groupes d'âge de 5 ans à partir de «moins de 20 ans» jusqu'à «65 ans et plus», chacun de ces groupes étant divisé selon le sexe. Les déclarations imposables et toutes les déclarations, imposables ou non, font l'objet d'une analyse dans des colonnes alternantes. Ce tableau se fonde sur les renseignements fournis en première page des déclarations quant à la date de naissance. Un certain nombre de déclarations ne donnaient pas l'âge: aucune analyse de ces déclarations n'a été faite séparément, mais elles sont comprises dans le total global. Les tableaux 9 et 9A présentent une analyse plus détaillée par âge.

TABEAU 5 — TOUTES LES DÉCLARATIONS, PAR VILLE OU LIEU DE RÉSIDENCE

Dans ce tableau, toutes les déclarations sont classées d'après l'adresse indiquée sur la déclaration lors de la production. Les déclarations imposables et toutes les déclarations, imposables ou non, font l'objet d'une analyse dans des colonnes alternantes. Les villes qui sont désignées comme étant des régions métropolitaines le sont en conformité des définitions employées dans le recensement de 1976, sauf qu'elles ne comprennent pas les secteurs des comtés adjacents, mais seulement ceux situés à l'intérieur du comté ou de la division de recensement où ils sont situés en majeure partie. Dans certains cas, les régions métropolitaines du recensement ont été subdivisées, comme Halifax et Dartmouth, Québec et Lévis, Ottawa et Hull, Vancouver et New Westminster. Seulement un certain nombre des principaux centres dans chaque province ont fait l'objet d'une telle analyse détaillée ainsi que l'indique le tableau. Les contribuables qui résident hors des endroits mentionnés ont été inscrits sous la rubrique «Autres régions» de leur province. La décomposition du nombre des déclarations, selon le revenu, pour chaque ville indiquée dans ce tableau, est

province. These amounts shown by residents of Quebec are collected on income earned in other provinces.

TABLE 6 — TAXABLE RETURNS BY MARITAL STATUS, DEPENDANTS AND INCOME

This table provides a distribution by total income class of all taxable returns, according to marital status for tax purposes and number of dependants. A number of persons whose incomes are less than the amount of the exemptions for married persons are taxed as married. These are persons whose spouses received incomes in excess of \$430, but not over \$2,750 therefore resulting in a reduced exemption. *The number of dependants shown does not include wives or dependants claimed in order to establish married or equivalent exemption.* For similar data on all returns see Table 6A.

TABLE 6A — ALL RETURNS BY MARITAL STATUS, DEPENDANTS AND INCOME

This table provides a distribution by total income class of all returns, taxable and non-taxable, according to marital status for tax purposes and number of dependants. A number of persons whose incomes are less than the amount of the exemptions for married persons are taxed as married. These are persons whose spouses received incomes in excess of \$430, but not over \$2,750 therefore resulting in a reduced exemption. *The number of dependants shown does not include wives or dependants claimed in order to establish married or equivalent exemption. For similar data on taxable returns only see Table 6.*

TABLE 6B — ALL RETURNS BY MARITAL STATUS AND SEX

In this table all returns both taxable and non-taxable are classified by sex and by actual marital status in addition to the classification by marital status for tax purposes. The information concerning actual marital status has been tabulated from the entry on page 1 of the tax return describing taxpayer's marital status as at 31st December. The column "widowed or divorced" includes "separated".

TABLE 7 — ALL RETURNS BY PROVINCE AND INCOME

In this table the taxable returns and all returns for each province have been distributed by total income class. Allocation to a province is based on the taxpayer's address at the time of filing.

In this table all returns for a province have been distributed by occupational class. Allocation to a province is based upon the taxpayer's address at the time of filing. For similar data on taxable returns only see Table 8A.

donnée dans le tableau 1, Partie 2. A remarquer que ce tableau indique des montants d'«Impôt provincial à payer» par des résidents de la province de Québec bien que le gouvernement fédéral ne perçoive pas l'impôt provincial sur le revenu pour le compte de la province de Québec. Ces montants indiqués par des résidents du Québec sont perçus sur le revenu gagné dans d'autres provinces.

TABLEAU 6 — DÉCLARATIONS IMPOSABLES, SELON LA SITUATION DE FAMILLE, LES PERSONNES À CHARGE ET LE REVENU

Ce tableau répartit toutes les déclarations imposables d'après la catégorie du revenu total, la situation de famille aux fins de l'impôt et le nombre de personnes à charge. Bien des personnes dont le revenu est inférieur à l'exemption de marié sont imposées à titre de personnes mariées. Il s'agit de contribuables dont le conjoint a touché un revenu supérieur à \$430 mais n'excédant pas \$2,750 par conséquent réduisant l'exemption. *Le nombre de personnes à charge indiqué ne comprend pas les épouses ni les personnes à charge dont il a été tenu compte pour établir l'exemption de marié ou de l'équivalent.* Pour les données semblables concernant toutes les déclarations, voir Tableau 6A.

TABLEAU 6A — TOUTES LES DÉCLARATIONS, SELON LA SITUATION DE FAMILLE, LES PERSONNES À CHARGE ET LE REVENU

Ce tableau donne la répartition, par catégorie de revenu total, de toutes les déclarations imposables et non imposables d'après la situation de famille aux fins de l'impôt et le nombre de personnes à charge. Il s'agit de contribuables dont le conjoint a touché un revenu supérieur à \$430 mais n'excédant pas \$2,750. *Le nombre de personnes à charge indiqué ne comprend pas les épouses ni les personnes à charge dont il a été tenu compte pour établir l'exemption de marié ou de l'équivalent.* Pour les données semblables concernant les déclarations imposables seulement, voir Tableau 6.

TABLEAU 6B — TOUTES LES DÉCLARATIONS, SELON LA SITUATION DE FAMILLE ET LE SEXE

Dans ce tableau, toutes les déclarations, imposables comme non imposables, sont classées d'après le sexe et la véritable situation de famille en plus de l'être d'après la situation de famille aux fins d'impôt. Les renseignements relatifs à la véritable situation de famille ont été tirés de la première page de la déclaration d'impôt, qui donne la situation de famille du contribuable au 31 décembre. La colonne «veufs ou divorcés» comprend «séparés».

TABLE 13 — DISTRIBUTION OF GROSS AND NET INCOME BY PROVINCE

Distribution of Gross and Net Income—Provinces and Canada—This table is presented to show the amount of gross income reported by taxpayers and to show its relation to the net income reported in the tax returns.

Where the return is for a partner in a business or other type of enterprise, the partner's percentage share of the net income was recorded, and the corresponding share of the gross income of the partnership was used in compiling this table.

In some instances the gross income was not obtainable but in each case the net was extracted and identified as a

Les contribuables qui vivent hors d'une des dix provinces sont inclus dans les totaux pour le Canada.

TABLEAU 9A — TOUTES LES DÉCLARATIONS, PAR PROVINCE ET ÂGE

Dans ce tableau, toutes les déclarations, imposables ou non, sont classées selon la province de résidence lors de la production de la déclaration et, pour chaque province, selon l'âge, à partir de «moins de 18 ans» jusqu'à «plus de 75 ans»; un groupe distinct réunit ceux dont l'âge n'est pas donné. TABLEAU 13 — RÉPARTITION DU REVENU BRUT ET NET PAR PROVINCE

Répartition du revenu brut et net—Provinces et Canada—Ce tableau fait voir le montant de revenu brut déclaré par les contribuables et le rapport existant entre celui-ci et le revenu net indiqué dans les déclarations.

Lorsqu'il s'agit de la déclaration d'un associé dans une entreprise commerciale ou dans un autre genre d'entreprise, la part de l'associé dans le revenu net a été inscrite, et la partie correspondante du revenu brut de la société en nom collectif a été employée dans le calcul de ce tableau.

Dans certains cas, on n'a pu obtenir le revenu brut. En tels cas, on a estimé le revenu net et on l'a désigné comme

net", for which the corresponding gross was not available in the final tabulation the gross income was increased to compensate for the figures not originally obtained. The basis of the percentage increase was obtained by comparing the gross for each specific type of income with the related net income within a province; the net income tabulated where there was no corresponding gross was then increased by this factor to derive the unreported gross. The amount of capital cost allowance as specified in the Capital Cost Allowance schedule (Schedule 8) under the heading "Capital Cost Allowance for 1979", column 7, and, for farmers or fishermen, the total of the entries in column 6 of the separate schedule, has been accumulated and shown for each province and for each type of income in this table. As in the case of the gross income, the reported Capital Cost Allowance is increased by an inflation factor to compensate for figures not originally available.

The Capital Cost Allowance attributed to a partner is the total of the partner's claim in wholly owned assets, plus his share in the claim of the partnership.

Both taxable and non-taxable returns are included in this table. Returns with addresses outside Canada are included in the totals for Canada.

TABLE 14—ALL RETURNS WITH CLAIM FOR PERSONAL EXEMPTIONS BY INCOME CLASSES

In this table all returns taxable and non-taxable are distributed by income classes and the personal exemption claims and the incomes of spouse and dependants are analyzed. The data have been tabulated from the "Claim for Personal Exemptions" on Page 2 of the return and also from the "Additional Personal Exemptions" claimed on Schedule 6.

The items tabulated here have already been defined in the description of items 28 to 32 earlier in this text. The following additional notes cover the treatment of personal exemptions claims in this table:

Non-residents and certain others not entitled to claim personal exemptions are excluded. Only those taxed as single and claiming the basic personal exemption are counted under the heading "Single—Basic Personal Exemption". Those claiming Age and Disability Exemptions are also included in the counts under Single or Married or Equivalent Exemptions. Incomes of dependants are recorded only to a maximum of 5 dependants; if there are more than 5, the five largest incomes are recorded.

Persons claiming exemptions for wholly dependent children are dealt with separately under the \$500 and \$910 claims and these in turn are subdivided into those claiming the maximum or the reduced exemption. The \$500 exemption is reduced if the dependant earns in excess of \$1,750, and the \$910 exemption is reduced if the dependant earns in excess of \$1,840. The number of returns claiming from one to 6 or more wholly dependent children is tabulated and placed in the second final column. From this amount the total number of dependants is tabulated and shown in the final column.

revenu «net» dont le revenu correspondant n'était pas disponible. Dans le dernier calcul on a augmenté le montant du revenu brut pour tenir compte des chiffres non disponibles. La proportion de cette augmentation a été obtenue de la façon suivante: pour chaque genre déterminé de revenu, on a établi le rapport entre le revenu brut et le revenu net dans une même province; le revenu net auquel ne correspond aucun revenu brut a ensuite été augmenté suivant le rapport obtenu, ce qui a donné le revenu brut non déclaré. On a réuni et réparti par province et par catégorie de revenu, dans ce tableau, le montant des déductions pour amortissement précisées dans la colonne 7 intitulée «Déductions pour amortissement», du tableau (Annexe 8) de la déduction pour amortissement et, dans le cas des cultivateurs et des pêcheurs, le total des montants figurant dans la colonne 6 du tableau distinct. Comme dans le cas du revenu brut, on a augmenté la «Déduction pour amortissement» par un coefficient d'inflation afin de tenir compte des chiffres non disponibles.

La déduction pour amortissement attribuée à un associé est le total de la réclamation de l'associé portant sur les biens qui lui appartiennent en totalité plus la partie de sa réclamation portant sur la société en nom collectif.

Les déclarations imposables et non imposables sont toutes deux prises en ligne de compte. Les déclarations portant des adresses hors du Canada sont comprises dans les totaux pour le Canada.

TABLEAU 14—TOUTES LES DÉCLARATIONS COMPORTANT DES DEMANDES D'EXEMPTIONS PERSONNELLES, PAR CATÉGORIE DE REVENU

Ce tableau, qui répartit toutes les déclarations imposables et non imposables par catégorie de revenu, analyse les exemptions personnelles réclamées et les revenus du conjoint et des personnes à charge. Les données ont été tirées de la section des «Demandes d'exemptions personnelles» à la page 2 de la déclaration, de même que des «Exemptions personnelles supplémentaires» réclamées à l'Annexe 6.

Les postes analysés ont déjà été définis auparavant dans le présent texte dans la description des postes 28 à 32. Les remarques supplémentaires suivantes expliquent le traitement des demandes d'exemptions personnelles figurant dans ce tableau:

Les non-résidents et certaines autres personnes n'ayant pas le droit de réclamer d'exemptions personnelles sont exclus. Seules les personnes imposées à titre de célibataires et réclamant l'exemption personnelle de base, sont comptées sous la rubrique «Célibataires—Exemptions personnelles de base». Les personnes qui réclament l'exemption en raison d'âge ou la déduction pour invalidité sont également comprises dans les dénombrements figurant sous les rubriques «Exemption de célibataire» ou «Exemption de marié» ou l'équivalent. Les revenus des personnes à charge sont inscrits jusqu'à un maximum de 5 seulement; s'il y en a plus de 5, les cinq revenus les plus importants sont inscrits.

Les réclamations d'exemptions pour des enfants entièrement à charge sont divisées en deux catégories distinctes de \$500 et de \$910, qui sont ensuite subdivisées en deux autres catégories, les réclamations d'exemptions maximales et les réclamations d'exemptions réduites. L'exemption de \$500 sera réduite si le revenu de la personne à charge dépasse \$1,750 et l'exemption de \$910 le sera si le revenu de la per-

TABLE 15—ALL RETURNS WITH CHILD CARE EXPENSE CLAIMS

In this table taxable returns and all returns taxable and non-taxable with child care expenses claimed in Schedule 5 are distributed by income class. Expenses may be claimed either by a working mother or by a father who was single, a widower, divorced or separated, or whose wife was infirm or in an institution. In each class the number of children claimed, total payments for care and allowable deductions for child care expenses are shown. Also shown are the number claiming a deduction under Limitation A, B, C or claiming the total amount of payments as described in Schedule 5.

TABLE 16—ALL RETURNS WITH TAXABLE CAPITAL GAINS OR ALLOWABLE CAPITAL LOSSES

This table analyzes the principal sources of capital gain or loss as reported in Schedule 2, "Statement of Capital Dispositions". This statement contains a "Summary of Capital Gains" from which these data are obtained. The net gain or loss reported on the three major items—shares, real estate and bonds and other properties—are distributed by income class and broad occupation class. The remaining three items—information slips, personal use property and listed personal property are here combined under the heading "All Other Gains or Losses". Total capital gain or loss from all sources has been segregated into gains and losses, and likewise for the taxable gain or allowable loss field. The taxable capital gain is one-half of the total capital gain but allowable losses are limited to \$2,000 maximum in the current year although the excess may be carried over to reduce taxable capital gains and other income in future years.

TABLE 17—CHILD TAX CREDIT BY MARITAL STATUS, NUMBER OF CHILDREN AND FAMILY NET INCOME CLASS

This table provides a distribution by total family net income class of all returns claiming a child tax credit on Schedule 10, according to actual marital status and number of children eligible for the credit.

TABLE 18—CHILD TAX CREDIT BY PROVINCE AND FAMILY NET INCOME CLASS

This table provides a distribution by total family net income class of all returns claiming a child tax credit on Schedule 10, according to province of residence.

sonne à charge est supérieur à \$1,840. On fait le dénombrement des déclarations comportant des réclamations à l'égard de 1 à 6 enfants ou plus entièrement à charge et, dans la dernière colonne, on détermine le nombre total de personnes à charge pour chaque catégorie indiquée.

TABLEAU 15—TOUTES LES DÉCLARATIONS COMPORTANT DES RÉCLAMATIONS DE FRAIS DE GARDE D'ENFANTS

Ce tableau donne la répartition, par catégorie de revenu, des déclarations imposables et de toutes les déclarations imposables et non imposables comportant des réclamations de frais de garde d'enfants selon l'Annexe 5. Ces frais peuvent être réclamés par une mère qui travaille ou un père qui est célibataire, veuf, divorcé ou séparé ou dont la femme est atteinte d'incapacité ou est placée dans un établissement.

On trouvera, pour chaque catégorie, le nombre d'enfants inscrits, le total des sommes versées pour la garde des enfants et les déductions autorisées au titre de frais de garde d'enfants. Le nombre de personnes réclamant une déduction selon les limites A, B, C ou réclamant le montant total des paiements figurant à l'Annexe 5 est également indiqué.

TABLEAU 16—TOUTES LES DÉCLARATIONS COMPORTANT DES GAINS EN CAPITAL IMPOSABLES OU DES PERTES EN CAPITAL DÉDUCTIBLES

Ce tableau donne l'analyse des principales sources de gains ou de pertes en capital déclarées à l'Annexe 2, sous la rubrique «État des dispositions de biens en immobilisations». Cet état comprend un «Sommaire des gains en capital» d'où ces données sont tirées. La perte ou le gain net en capital déclaré relativement aux trois principaux postes actions, biens immeubles et autres biens est réparti par catégorie de revenu et par catégorie générale d'emploi. Les autres trois postes, feuillets de renseignements, biens à usage personnel et biens personnels désignés sont groupés ici sous la rubrique «Tous autres gains ou pertes». Le total des gains ou des pertes en capital de toute provenance a été divisé en gains et pertes; il en est de même pour les gains imposables et les pertes déductibles. Le montant des gains en capital imposable est égal à la moitié du total des gains en capital mais le montant des pertes déductibles ne doit pas dépasser \$2,000 pour l'année courante. Toutefois, l'excédent peut être reporté aux années suivantes pour réduire les gains en capital imposables et les autres revenus.

TABLEAU 17—CRÉDIT D'IMPÔT POUR ENFANT, SELON LA SITUATION DE FAMILLE, LE NOMBRE D'ENFANTS ET LA CATÉGORIE DE REVENU NET DE LA FAMILLE

Ce tableau donne la répartition, par catégorie de revenu net de la famille, de toutes les déclarations réclamant un crédit d'impôt pour enfant selon l'annexe 10, d'après la situation de famille actuelle et le nombre d'enfants admissibles pour le crédit.

TABLEAU 18—CRÉDIT D'IMPÔT POUR ENFANT, PAR PROVINCE ET CATÉGORIE DE REVENU NET DE LA FAMILLE

Ce tableau donne la répartition, par catégorie de revenu net de la famille, de toutes les déclarations réclamant un crédit d'impôt pour enfant selon l'annexe 10, d'après la province de résidence.

Note: The ranking in this table is based on the average income of all returns. The information was collected from our universe master file and is not from our sample used to tabulate statistics for the other tables. Therefore, there will be some differences between this data and information tabulated in table 5.

Cities included in this table have a population of 16,500 or more taxpayers for the 1979 tax year. Consequently, the average incomes here are not necessarily the 100 highest average incomes in Canada. Further information is available on these and other localities in basic table 5 and geographic tables 1 and 2.

Note: Le rang dans ce tableau est selon le revenu moyen. L'information a été tirée de notre dossier général et non de l'échantillon servant pour les autres tableaux, c'est pourquoi ce tableau est différent du tableau 5.

Les villes incluses dans ce tableau sont celles avec une population de 16,500 et plus déclarants pour 1979. Conséquemment, le revenu moyen dans ce tableau n'est pas nécessairement le plus haut au Canada. On peut obtenir d'autres informations sur ces villes et autres localités dans le tableau de base 5 et dans les tableaux géographiques 1 et 2.

Doctors, lawyers and similar professional classifications shown above include only those earning the major part of their income as professional fees. Professionals whose principal source of income is in the form of salary are classified as employees.

Please note: This table is now an analysis by all returns rather than by taxable returns, as was done prior to the 1979 edition of Taxation Statistics.

Remarque: Pour plus amples renseignements, voir tableaux 3, 8, 8A, 11, 12.

Les catégories professionnelles représentées par les médecins, les avocats et les autres professions libérales semblables indiquées ci-dessus ne comprennent que celles où les honoraires professionnels constituent la plus grande partie du revenu. Les professionnels dont la source principale de revenu revêt la forme de traitement ou salaire sont classés comme étant des employés.

A remarquer: Ce tableau est maintenant une analyse par toutes les déclarations plutôt que par déclarations imposables comme avant l'édition de Statistique Fiscale de 1979.

Basic Tables of Individual Statistics

Negative figures are indicated by a minus sign (—) following the figure.

Money figures may not add to total due to rounding, or editing.

A blank in a column of money figures indicates nil or too small to be expressed (Under \$500).

Tableaux de base de la statistique concernant les particuliers

Les chiffres négatifs sont indiqués par le signe (—) après le chiffre.

Les montants en dollars ayant été arrondis ou édités, il peut arriver qu'en les additionnant, on n'obtienne pas les totaux indiqués.

Un espace laissé en blanc dans une colonne de montants en dollars indique un montant néant ou trop petit pour être exprimé (Moins de \$500).

(1) Assessed taxable income does not equal total income less total exemptions and deductions because some returns in which exemptions and deductions exceed the total income are taxable in respect of lump sum payments) but the taxable income is recorded as zero in such instances. While taxable income is recorded on some non-taxable returns, no tax is payable in such cases after the application of tax adjustments and tax credits.

Note: See page 9 and following for a description of this table and of all items of data.

(1) Le revenu imposable établi n'est pas égal au revenu total moins toutes les exemptions et les déductions parce que certaines déclarations, dans lesquelles les exemptions et les déductions dépassent le revenu total, sont assujetties à l'impôt (à l'égard de paiements forfaitaires), mais le revenu imposable est indiqué comme étant néant dans de tels cas. Bien que certaines déclarations non imposables font état d'un revenu imposable, aucun impôt n'est à payer en pareils cas après l'application des redressements et des dégrèvements d'impôt.

Remarque: On trouvera aux pages 9 et suivantes une explication de ce tableau et de tous les postes qui le composent.

Description of Tables in Part 2

Part 2 all data presented is derived from the Universe of taxfilers rather than from a sample of any kind. Both tables included here are tabulated from what is known as the Locality Code Statistics File. This file is developed in the following manner:

Each income tax return is processed in one of the Taxation Centres, a computer generated code delineating the geographical area of the return is assigned to it. This code is assigned by matching the address to an exhaustive list of place names and all known variations and associated codes which are based on the 1976 census definitions. In certain instances small groups of towns or rural areas are assigned one code as the population of each individual place is too small to consider separately. Rural addresses are coded to the locality providing postal service to it. For example, R.R. Renfrew is assigned to the code which delineates Renfrew. In addition, where post offices of one town serve another town as well, both towns are coded in the same manner, as this assignment is based on the mailing address. This problem is particularly evident when looking at the subdivisions of Toronto, Montreal and Vancouver in Table 1. As all tabulations are based on these locality codes, it is not possible to generate statistics on a single village if its returns have been included with a group of villages under one code.

Thus, because of the methodology used in this data collection process it may be seen that the statistics produced may deviate somewhat from the actual, or seem inflated in certain areas and deflated in others in relation to the actual population.

TABLE 1—ALL RETURNS BY COUNTIES OR CENSUS DIVISIONS AND SELECTED LOCALITIES

In this table, data on taxable and all returns is tabulated for counties, census divisions, and selected localities. For taxable returns, the number, total wages, salaries and commissions from employment, total income, and total tax payable are shown from each area. For all returns, the number, total wages, salaries and commissions from employment, and total income are shown. A distribution of the number of all returns by income range is also tabulated for each area. The figures for each county or census division include the figures for each of the selected localities within the area which appear immediately beneath the county or census division figures. Cities which are defined as metropolitan areas are in accordance with definitions employed in the 1976 census, except that they do not include areas in adjacent counties but only those within the county or census division in which they are mainly situated. In a few instances the census metropolitan area has been subdivided, namely, Halifax and Dartmouth, Montreal, Quebec and Levis, Ottawa and Hull, Toronto, and Greater Vancouver.

Income and tax data on a number of additional cities and towns not covered in this table are shown in Table 2 of this part.

Description des tableaux de la partie 2

Dans la Partie 2, toutes les données découlent de l'univers de tous les contribuables ayant produit une déclaration et non d'échantillonnages précis. Les deux tableaux figurant ici ont été dressés d'après ce que nous appelons le fichier des statistiques de code de localité. Voici comment est constitué ce fichier:

Au fur et à mesure que les déclarations d'impôt sont traitées dans un centre fiscal, l'ordinateur attribue un code à chaque déclaration suivant sa région géographique déterminée. Ce code est attribué par raccord de l'adresse avec une liste exhaustive de noms d'endroits et de toutes les variations connues et des codes connexes, d'après les définitions du recensement de 1976. Dans certains cas, le même code est attribué à de petits groupes de villages ou de régions rurales lorsque la population de chacun des endroits est trop petite pour être considérée séparément. Les adresses rurales sont codées suivant la localité qui leur fournit le service postal. Par exemple, le code qui délimite Renfrew est attribué à l'adresse R.R. 1, Renfrew. De plus, si les bureaux de poste d'un village desservent aussi un autre village, les deux villages sont codés de la même manière puisque l'attribution du code se fait d'après l'adresse postale. Ce problème est particulièrement évident dans les subdivisions de Toronto, Montréal et Vancouver dans tableau 1. Etant donné que tous les tableaux découlent de ces codes de localité, il n'est pas possible de rassembler les statistiques d'un seul village si les déclarations des contribuables de ce village ont été réunies à celles d'un groupe de villages sous un même code. Ainsi, à cause de la méthodologie utilisée dans la collecte des données, il se peut que les statistiques varient quelque peu des données réelles, ou semblent, dans certaines régions, supérieures ou inférieures à la population réelle.

TABEAU 1—TOUTES LES DÉCLARATIONS, PAR COMTÉ OU DIVISION DE RECENSEMENT ET ENDROIT CHOISI

Dans ce tableau, les données sur les déclarations imposables et toutes les déclarations sont analysées par comté, divisions de recensement et endroit choisi. Pour toutes les déclarations imposables, le nombre, salaires, traitements et commission d'emploi, revenu total et l'impôt total à payer sont perçus pour chaque région. Pour toutes les déclarations, le nombre, salaires, traitements et commission d'emploi et revenu total sont perçus. Pour toutes les déclarations par catégorie de revenu, on décompose aussi le nombre pour chaque région. Les chiffres relatifs à chaque comté ou division de recensement comprennent les chiffres visant chacune des localités choisies du secteur qui sont indiquées immédiatement au-dessous des chiffres relatifs au comté ou à la division de recensement. Les villes qui sont désignées comme étant des régions métropolitaines le sont en conformité des définitions employées dans le recensement de 1976, sauf qu'elles ne comprennent pas les secteurs des comtés adjacents, mais seulement ceux situés à l'intérieur du comté ou de la division de recensement où ils sont situés en majeure partie. Dans certains cas, les régions métropolitaines du recensement ont été subdivisées, comme Halifax et Dartmouth, Montréal, Québec et Lévis, Ottawa et Hull, Toronto et Greater Vancouver.

On trouvera, en tableau 2 de cette Partie, des données concernant le revenu et l'impôt dans le cas de certaines autres villes non comprises dans ce tableau.

TABLE 2—ADDITIONAL LOCALITIES NOT TABULATED
ELSEWHERE

The localities shown in this table are additional localities not tabulated in Summary Table 1 of Part 1 or Table 1 of this Part. Some of these cities and towns may also have been included in Table 5 of Part 1. However, the figures will probably vary somewhat as those in Table 5 were derived from the statistical sample while those in this table were derived from the universe.

TABLEAU 2—CERTAINES LOCALITÉS NON COMPRISES
DANS LES AUTRES TABLEAUX

On trouve dans ce tableau certaines localités qui ne sont pas comprises dans le tableau récapitulatif 1 de la Partie 1 ou dans le tableau 1 de la Partie 1. Certaines de ces villes et certains de ces villages peuvent aussi être compris dans le tableau 5 de la Partie 1. Cependant, les données varient probablement un peu, étant donné que celles du tableau 1 découlent d'un échantillonnage statistique, tandis que celles du tableau 2 découlent de l'univers de l'enquête statistique.

Geographic Statistics

All statistics in this section are derived from the universe rather than a sample.

Money figures may not add to total due to rounding.

Statistiques géographiques

Toutes les statistiques de cette section sont dérivées de toutes les déclarations analysées plutôt que de l'échantillon.

Les montants en dollars ayant été arrondis, il peut arriver qu'en les additionnant, on n'obtienne pas les totaux indiqués.

TABLE 1 — ANNUAL COLLECTIONS AND COSTS
1940-1980

This table shows the annual collections of National Revenue, Taxation net of refunds, and the cost of collecting the annual revenues. Collections of income tax from individuals and corporations are made under the Income Tax Act enacted in 1948 which was revised and re-enacted effective for the 1953 and subsequent taxation years. In years prior to the inception of the Income Tax Act, authority was provided for the collection of these taxes under the Income War Tax Act enacted in 1917. Estate taxes were collected under the Estate Tax Act enacted in 1958. Succession duties were collected under the Dominion Succession Duty Act enacted in 1941.

Collections of individual and corporation income tax include Old Age Security Tax for 1952 and subsequent fiscal years. Amounts of individual and corporation income tax collected on behalf of the provincial governments are included in 1962 and subsequent fiscal years. Canada Pension Plan Contributions are included with individual income taxes collected in 1967 and subsequent fiscal years and Unemployment Insurance Premiums beginning 1972.

The following notes describe briefly the items under the various column headings:

Individual Income Tax—Under Section 2 of the Income Tax Act an income tax is levied upon the taxable income of persons resident in Canada at any time during a taxation year. The tax on individuals is levied at rates set forth in Section 117 of the Act. The collections under this heading include amounts deducted at the source or remitted by employers and direct payments of instalments, balances of tax, arrears, etc., by individuals.

The tax collected from individuals in a given fiscal year exceeds the assessed tax payable shown in Part 1 of this book. This is partly due to the differing time periods covered. A fiscal year includes a mixture of more than one taxation year. Collection figures also include revenue from sources not reflected in the Part 1 analysis of tax payable, principally re-assessments of tax subsequent to the initial assessment, tax deductions at the source not claimed on tax returns and assessments of tax on returns processed after the statistical close-off date.

Corporation Income Tax—This is levied under Section 2 of the Act at rates set forth in Section 123. Under Section 196 of the Act, corporations may elect to pay a tax of 15% on their undistributed income. Collections of this tax are included with the Corporation Income Tax.

TABLEAU 1 — RENTRÉES ANNUELLES ET FRAIS
(1940-1980)

Ce tableau indique les sommes nettes perçues chaque année par le ministère du Revenu National, Impôt, une fois les remboursements déduits; aussi, les frais de perception des revenus annuels. L'impôt sur le revenu des particuliers et des corporations est perçu en vertu de la Loi de l'impôt sur le revenu édictée en 1948 qui a été refondue et édictée de nouveau pour les années d'imposition 1953 et suivantes. Au cours des années qui ont précédé l'entrée en vigueur de la Loi de l'impôt sur le revenu, ces impôts étaient perçus en vertu de la Loi de l'impôt de guerre sur le revenu édictée en 1917. Les impôts sur les successions étaient perçus en vertu de la Loi de l'impôt sur les biens transmis par décès, édictée en 1958. Les droits successoraux étaient perçus en vertu de la Loi fédérale sur les droits successoraux édictée en 1941.

Les impôts perçus sur le revenu des particuliers et des corporations comprennent l'impôt de la sécurité de la vieillesse pour les années financières 1952 et suivantes. Les montants de l'impôt perçu sur le revenu des particuliers et des corporations pour le compte des gouvernements provinciaux sont inclus dans les années financières 1962 et suivantes. Les cotisations au Régime de pensions du Canada sont réunies aux impôts sur le revenu des particuliers perçus à l'égard des années financières 1967 et suivantes, ainsi qu'aux primes d'assurance-chômage à partir de 1972.

Les remarques suivantes donnent un bref exposé des postes qui figurent sous les titres des différentes colonnes:

Impôt sur le revenu des particuliers—En vertu de l'article 2 de la Loi de l'impôt sur le revenu, un impôt est prélevé sur le revenu imposable des personnes qui résident au Canada à quelque époque dans une année d'imposition. L'impôt sur les particuliers est établi selon les taux énoncés à l'article 117 de la loi. Les recouvrements figurant à ce poste comprennent les montants déduits à la source ou remis par les employeurs et les versements, soldes d'impôt, arriérés etc., payés directement par des particuliers.

L'impôt perçu des particuliers au cours d'un exercice financier donné dépasse les cotisations d'impôt exigibles figurant dans la Partie 1 de cet ouvrage. Cela est attribuable en partie au fait que des périodes différentes sont visées. L'exercice financier embrasse plus d'une année d'imposition. Les chiffres des rentrées comprennent également des recettes provenant de sources non indiquées dans l'analyse de l'impôt exigible, à la Partie 1, principalement les nouvelles cotisations d'impôt établies après la cotisation initiale, les retenues d'impôt à la source non indiquées dans les déclarations d'impôt et les cotisations d'impôt relatives aux déclarations traitées après la date limite du rassemblement des données statistiques.

Impôt sur le revenu des corporations—Prélevé en vertu de l'article 2 de la loi, aux taux énoncés à l'article 123. En vertu de l'article 196 de la loi, une corporation peut choisir de payer un impôt de 15% sur son revenu non distribué. Les recouvrements au titre de cet impôt sont compris dans l'impôt sur le revenu des corporations.

Excess Profits & Special Taxes — Under this heading appear collections under the Excess Profits Tax Act enacted during World War II. The figures from 1941 to 1952 inclusive relate solely to this Act. Beginning 1967 the Special 5% Refundable Tax payable by corporations and certain trusts is recorded here.

Non-Resident Tax — Under Section 212 of the Act a tax is withheld on payments to non-residents in respect of interest, dividends, rents, royalties, management fees and certain other types of income from Canada. The general rate is 15%, but a rate of 20% applies to dividends from corporations with a degree of Canadian ownership.

Succession Duties and Estate Tax — Under the Estate Tax Act which became effective January 1, 1959 resident estates with aggregate net value over \$50,000 were subject to estate tax. As a result of the 1971 Tax Reform legislation, federal estate taxes have been eliminated.

Succession duties pertain to estates subject to duty under the Dominion Succession Duty Act which preceded the Estate Tax Act.

Total Annual Cost — The cost of collecting the total annual revenues is also shown in this table. These costs include salaries, printing, travelling expenses, stationery, supplies, etc., but exclude building rentals and the rental value of space occupied in Government-owned buildings.

TABLE 1A — ESTIMATED ALLOCATION OF COLLECTIONS FROM INDIVIDUALS, EMPLOYERS AND CORPORATIONS

This table shows the estimated allocation of collections shown in Table 1 under the headings "Individual Income Tax" and "Corporation Income Tax" as between Federal Income Tax, Provincial Income Tax, Old Age Security Tax, Canada Pension Plan Contributions and Unemployment Insurance Premiums. The remaining revenues, Non-Resident Tax and Estate Tax, are not subject to allocation in this manner. Historically, this allocation goes back to the 1952 fiscal year when the Old Age Security Tax began to be collected. Following are brief notes concerning the items shown in this table:

Federal Income Tax—This represents the federal portion of individual and corporation income taxes.

Impôt sur les surplus de bénéfices et impôts spéciaux—A ce poste figurent les recouvrements effectués en vertu de la Loi de taxation sur les surplus de bénéfices édictée pendant la seconde guerre mondiale. Les chiffres des années 1941 à 1952 inclusivement se rapportent seulement à cette dernière loi précitée. A compter de 1967, l'impôt spécial remboursable de 5% que doivent payer les corporations et certaines fiducies est compris dans ce poste.

Impôt de non-résidents—En vertu de l'article 212 de la loi, un impôt est retenu sur les paiements faits aux non-résidents sous forme d'intérêts, dividendes, loyers, redevances, honoraires de gestion, ainsi que sur certains autres genres de revenus de provenance canadienne. Le taux général est de 25%, mais un taux de 20% s'applique aux dividendes provenant de corporations qui sont possédées dans une mesure quelconque par des Canadiens.

Droits successoraux et impôt sur les biens transmis par décès—D'après la Loi de l'impôt sur les biens transmis par décès, entrée en vigueur le 1^{er} janvier 1959, les successions résidentes dont la valeur nette globale dépassait \$50,000 étaient assujetties à l'impôt sur les biens transmis par décès. Par suite de la législation de réforme fiscale de 1971, les impôts fédéraux sur les biens transmis par décès ont été supprimés.

Les droits successoraux frappent les successions imposables en vertu de la Loi fédérale sur les droits successoraux, loi qui a précédé la Loi de l'impôt sur les biens transmis par décès.

Frais annuels totaux—Le tableau donne aussi les frais annuels de perception qui comprennent notamment les traitements, impressions, frais de voyage, papeterie, fournitures, etc., mais non la location d'immeubles ni la valeur locative des locaux occupés dans les immeubles du gouvernement.

TABEAU 1A — RÉPARTITION ESTIMATIVE DES SOMMES PERÇUES DES PARTICULIERS, DES EMPLOYEURS ET DES CORPORATIONS

Dans ce tableau, les recouvrements qui figurent au Tableau 1 sous les postes «Impôt sur le revenu des particuliers» et «Impôt sur le revenu des corporations» sont répartis de façon estimative entre l'impôt fédéral sur le revenu, l'impôt provincial sur le revenu, l'impôt de la sécurité de la vieillesse, les cotisations au Régime de pensions du Canada et les primes d'assurance-chômage. Les autres recettes, c.-à-d. l'impôt de non-résidents et l'impôt sur les biens transmis par décès, ne sont pas ainsi assujettis à la répartition. Historiquement, cette répartition remonte à l'année financière 1952 alors que l'impôt de la sécurité de la vieillesse a commencé à être perçu. Voici quelques remarques concernant les postes figurant dans ce tableau:

Impôt fédéral sur le revenu—Ceci représente la tranche fédérale de l'impôt sur le revenu des particuliers et des corporations.

Provincial Income Tax—This is the provincial income tax collected on behalf of those provinces which have agreements with the federal government under the Federal-Provincial Fiscal Arrangements Act. The province of Quebec is not included since it collects its own income tax from both individuals and corporations, and the province of Ontario collects its own income tax from corporations.

The rates of provincial income tax for individuals for the 1979 taxation year were 58% of taxable income for Newfoundland, 50% for Prince Edward Island, 52.5% for Nova Scotia, 55.5% for New Brunswick, 54% for Manitoba, 44% for Ontario, 53% for Saskatchewan, 38.5% for Alberta, 45% for British Columbia, and 43% for the Northwest Territories.

For corporations the rates were 10% of taxable income for Prince Edward Island, 12% for Nova Scotia and New Brunswick, 14% for Newfoundland and Saskatchewan, 15% for Manitoba and British Columbia, 11% for Alberta, and 10% for the Northwest Territories.

Old Age Security—Tax receipts and, from January 1, 1972, amounts required to be credited to the Old Age Security Fund under Section 25 (1)(a) of the Old Age Security Act.

Canada Pension Plan Contributions—These contributions are collected from employees, employers and self-employed persons. Earnings in 1979 above \$1000, up to a ceiling of \$10,600 a year, were subject to contributions. The rate is 1.8% of annual earnings for employees, with an equivalent matching contribution from the employer; for self-employed persons, 3.6% of annual earnings. Self-employed persons who earn less than \$1000 in a year are exempted from coverage.

Unemployment Insurance Premiums—These are collected from employees and employers and remitted by the employer.

Impôt provincial sur le revenu—Il s'agit de l'impôt provincial sur le revenu qui a été perçu pour le compte des provinces ayant signé des accords avec le gouvernement fédéral en vertu de la Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces. La province de Québec n'est pas incluse puisqu'elle perçoit son propre impôt sur le revenu des particuliers et des corporations; la province d'Ontario perçoit son propre impôt sur le revenu des corporations.

Les taux de l'impôt provincial sur le revenu des particuliers pour l'année d'imposition 1979 étaient 58% du revenu imposable pour Terre-Neuve, 50% pour l'Île du Prince Édouard, 52.5% pour la Nouvelle-Écosse, 55.5% pour le Nouveau-Brunswick, 54% pour le Manitoba, 44% pour l'Ontario, 53% pour la Saskatchewan, 38.5% pour l'Alberta, 45% pour la Colombie Britannique et 43% pour les Territoires du Nord-Ouest.

Dans le cas des corporations, les taux étaient 10% du revenu imposable pour l'Île du Prince-Édouard, 12% pour la Nouvelle-Écosse et le Nouveau-Brunswick, 14% pour Terre-Neuve et Saskatchewan, 15% pour le Manitoba et la Colombie Britannique, 11% pour l'Alberta et 10% pour les Territoires du Nord-Ouest.

Sécurité de la vieillesse—Les recettes fiscales et, à compter du 1^{er} janvier 1972, les montants devant être crédités à la Caisse de sécurité de la vieillesse en vertu de l'article 25(1)(a) de la Loi sur la sécurité de la vieillesse.

Cotisations pour le Régime de pensions du Canada—Ces cotisations sont perçues des employés, des employeurs et des personnes établies à leur propre compte. En 1979, les gains supérieurs à \$1000 mais n'excédant pas \$10,600 par année étaient assujettis aux cotisations. Le taux est de 1.8% des gains annuels de l'employé, une cotisation égale étant versée par l'employeur; dans le cas des personnes établies à leur propre compte, le taux est de 3.6% de leurs gains annuels. Les personnes établies à leur propre compte qui gagnent moins de \$1000 dans une année ne participent pas au Régime pour cette année-là.

Les contributions au plan d'assurance chômage—Elles sont perçues des employeurs et des employés et sont remises par l'employeur.

(1) Assessed taxable income does not equal total income less total exemptions and deductions because some returns in which exemptions and deductions exceed the total income are taxable (in respect of lump sum payments) but the taxable income is recorded as zero in such instances.

Note: See page 229 and following for a description of this table and of all items of data.

(1) Le revenu imposable établi n'est pas égal au revenu total moins toutes les exemptions et les déductions parce que certaines déclarations, dans lesquelles les exemptions et les déductions dépassent le revenu total, sont assujetties à l'impôt (à l'égard de paiements forfaitaires), mais le revenu imposable est indiqué comme étant néant dans de tels cas.

si l'espace fourni est insuffisant, annexer un état.

Dans certains cas, un agriculteur ou un pêcheur peut demander une déduction pour amortissement selon la méthode spéciale de l'«amortissement constant». On trouvera des détails complets dans les guides d'impôt sur le revenu des agriculteurs et des pêcheurs de 1979.

Si l'on n'emploie pas la méthode de l'«amortissement constant», il faut remplir le tableau ci-après conformément aux indications suivantes:

1) Les biens doivent être groupés en catégories et l'amortissement doit être basé sur le coût de tous les biens dans la catégorie, moins les sommes déduites au cours des années antérieures à titre d'amortissement de ces biens. Utiliser une ligne distincte pour chaque catégorie prescrite de biens.

2) Ne pas inclure le coût du fonds de terre dans la colonne (3).

c) La somme à inscrire dans la colonne (4) relativement à tout bien dont il a été disposé ne doit pas excéder son «coût en capital». Si le produit de la disposition d'un bien amortissable est supérieur soit au coût en capital du bien, soit à sa juste valeur marchande au 31 décembre 1971 (le plus élevé des deux montants), l'excédent doit être inscrit à l'Annexe 2.

d) Annexer des états détaillant les sommes inscrites dans les colonnes (3) et (4), y compris le genre de bien et le coût ou le produit de la disposition, selon le cas.

e) Inscrire dans la colonne (6) le taux qu'on désire utiliser, sans excéder le taux maximal prescrit, et appliquer ce taux au montant de la colonne (5). S'il n'est pas avantageux d'appliquer le taux maximal, ne pas le faire.

Introduction by the Minister

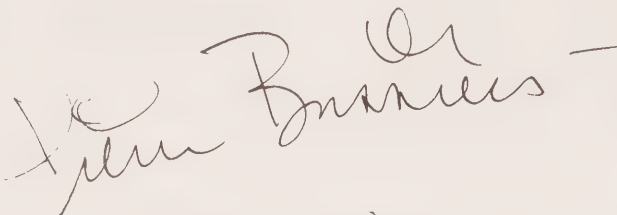

Since 1946, Revenue Canada, Taxation has produced statistics based on individual income tax returns in this series of annual reports entitled Taxation Statistics. The 1982 edition of the publication provides an in-depth profile of the Canadian taxpaying public through a comprehensive analysis of data from more than 15 million individual income tax returns filed for the taxation year 1980.

Taxation Statistics continues to serve as a valuable resource document for economists, researchers and others in federal and provincial governments, private organizations and the academic community.

Avant-propos du Ministre

Depuis 1946, Revenu Canada, Impôt publie chaque année, dans son rapport intitulé Statistique fiscale, un éventail de données concernant l'impôt sur le revenu des particuliers. L'édition 1982 de ce rapport présente un profil détaillé de l'ensemble des contribuables canadiens grâce à une analyse exhaustive des données compilées à partir des déclarations d'impôt sur le revenu produites par plus de 15 millions de contribuables pour l'année d'imposition 1980.

Statistique fiscale constitue un excellent ouvrage de référence pour enseignants, les économistes et les chercheurs. Il va sans dire qu'il s'agit aussi un outil fort utile au sein des gouvernements fédéral et provinciaux de même que pour de nombreux autres organismes.

HON. PIERRE BUSSIÈRES

Introduction by the Deputy Minister

The individual statistics in Part 1 of this book are based on a stratified random sample of 1980 individual income tax returns. For this edition, all returns processed up to January 27, 1982 were subject to sampling and are represented in this analysis. The deadline for the filing of these returns, without penalty, was April 30, 1981.

Part 1 of the book consists of two types of tables: summary tables of condensed data for selected cities, income classes, occupations and age groups; and basic tables of individual statistics.

Part 2 contains data on all returns by counties, census divisions, and selected localities and other geographical information.

Part 3 includes historical tables indicating taxes collected, the cost of administration on an annual basis from 1949-50 through the fiscal year 1980-81, and the historical statistics for identical individuals. Additional miscellaneous data are also included in Part 3.

A description of the statistical systems (sampling, coding etc.) and various items included in the statistics is at the front of each Part.

Facsimiles of the 1980 tax returns are included in an appendix at the back of the book.

Avant-propos du Sous-Ministre

Les statistiques sur les particuliers contenues dans la Partie 1 de cette publication proviennent d'un échantillonnage stratifié prélevé au hasard des déclarations d'impôt sur le revenu de 1980. Toutes les déclarations qui avaient été traitées au 27 janvier 1982 font partie de cette analyse. La date de production de ces déclarations sans pénalité était le 30 avril 1981.

La Partie 1 de cet ouvrage comprend deux types de tableaux: des tableaux récapitulatifs de données condensées présentés par villes, par catégories de revenu, par occupations et par groupes d'âge, et des tableaux de base où figurent des statistiques sur les particuliers.

La Partie 2 renferme des données sur toutes les déclarations selon le comté, la division de recensement et certaines localités. Cette partie contient aussi d'autres renseignements présentés par régions géographiques.

La Partie 3 renferme des tableaux historiques faisant état des impôts perçus et des frais d'administration annuels engagés depuis 1949-1950 jusqu'à l'exercice financier 1980-1981. On y trouve aussi des statistiques historiques pour les particuliers identiques. Diverses autres données ont aussi été incluses dans la Partie 3.

Au début de chaque partie se trouve une description des méthodes statistiques utilisées (échantillonnage, codage, etc.) et des différents éléments contenus dans ces statistiques.

Des fac-similés des déclarations d'impôt de 1980 sont annexés à la fin de l'ouvrage.

BRUCE A. MACDONALD

Note to Users:

This publication has been prepared to provide a comprehensible profile of the taxpaying public. To supplement the statistics in the publication, details of the methodology used in their collection as well as definitions and descriptions are provided within the text at the beginning of each Part of the book. When using these statistics, please consult the text for assistance in interpretation and analysis.

While Taxation Statistics presents a large portion of the statistics produced by Revenue Canada, Taxation, there are further unpublished tables which provide information by provinces, finer occupation levels, geographical levels, etc. These tables serve as an extension to Taxation Statistics and are available upon request. If the data requested are unavailable, we will consider extracting the information on a cost-recovery basis.

Any comments or suggestions are appreciated. In addition, requests for income/tax statistics not available through this publication may be directed to us at:

A tous nos lecteurs,

La présente publication vise à présenter un profil compréhensible de l'ensemble des contribuables. Comme complément aux statistiques qu'elle renferme, nous y avons inséré, au début de chaque partie, des précisions sur la méthodologie utilisée pour leur rassemblement, ainsi que des définitions et des descriptions. Pour l'interprétation et l'analyse de statistiques, nous vous invitons donc à consulter le texte correspondant.

Même si Statistique fiscale présente une grande partie des statistiques rassemblées par Revenu Canada, Impôt, il existe d'autres tableaux non publiés qui fournissent des renseignements par province, par niveau de profession, par localité, etc. Ces tableaux complètent la publication et vous pouvez les obtenir sur demande. Si les données que vous demandez ne figurent pas dans Statistique fiscale, nous pourrions les extraire de nos fichiers pour vous, moyennant certains frais.

Il nous fera plaisir de recevoir vos observations ou vos suggestions. En outre, vous pouvez envoyer vos demandes concernant des statistiques sur les revenus et l'impôt non fournies dans cette brochure à l'adresse suivante:

Description of Items and 1980 Rate Structure

Statistical Sample and Coverage—An analysis of 1980 Individual Income Tax returns is presented in the Summary and Basic Tables of Part I. The statistics have been compiled from a sample of returns. Several different sampling ratios and limits were used, based on Total Income.

The sample, as in the past, was selected by a sequential count by means of a computer. The sample is stratified using the following five items as characteristics of stratification:

- (1) Source of income: either employment type, self-employment type or investment income.
- (2) Urban Geographic areas: cities with similar population sizes have been grouped within each region, with the result that there are 15 urban groupings throughout the country.
- (3) Rural Geographic areas: for each province or territory those locations not included in an urban grouping are sampled as a single area; thus giving 12 additional sampling areas. One additional grouping is provided for non-resident taxpayers.
- (4) Tax Status: either taxable or non-taxable.
- (5) Income Range: for taxable returns there are four ranges of total income and non-taxable there are three ranges of total income.

These characteristics define $3 \times (13 + 15) \times 7 = 588$ regular strata. Two more strata are provided, one for taxpayers with unusually large incomes and one for taxpayers who for some reason do not fit into the other strata. Hence, there are 590 cells in total. In these cells, the sampling ratios range from 1:1 to 1:200 with lowest rates of sampling occurring in cells relating to employment type income in dense population areas of the provinces of Ontario and Quebec.

In aggregate, the total number of returns analyzed was 3.6% of the total number processed to Jan. 27, 1982 as shown in the following:

Number of returns in universe	14,764,870
Number of returns in the sample	527,044

The sampling technique speeds up the analysis of the large volume of returns and has been found to be accurate in overall results; while the same degree of accuracy cannot be expected in very detailed analysis as in larger groups, heavier sampling ratios are applied in sparse areas and classifications in an attempt to strengthen these groups.

Source of Information—The statistical analysis of 1980 returns was conducted at the Taxation Data Centres. The basic information punched on the original assessment cards for the selected sample was supplemented by certain additional items which were transcribed by statistical clerks, punched and later associated with the basic information. The statistics are extracted from returns subsequent to their assessment. A portion of the returns are later re-assessed and any changes resulting from re-assessment are not taken into account in these statistics. The tables were prepared

Description des postes et de la structure des taux de 1980

Échantillonnage et portée statistique—Les tableaux récapitulatifs et les tableaux de base de la Partie I contiennent l'analyse des déclarations d'impôt sur le revenu produites par les particuliers en 1980. Les statistiques ont été dressées d'après un échantillon de déclarations prélevé selon différents pourcentages et différentes limites, fondés sur le revenu total.

Comme par les années passées, l'échantillonnage résulte d'un dépouillement séquentiel effectué par ordinateur. L'échantillon est stratifié et caractérisé par les cinq éléments suivants:

- 1) Source du revenu: revenu tiré d'un emploi, d'un travail autonome ou de placements.
- 2) Régions géographiques urbaines: des villes à population semblable ont été groupées en régions urbaines pour donner 15 groupes urbains dans tout le pays.
- 3) Régions géographiques rurales: pour chaque province ou territoire, les endroits non compris dans les régions urbaines sont compris dans un seul groupe, ce qui donne 12 zones d'échantillonnage supplémentaires. Un groupe additionnel est fourni pour les contribuables non-résidents.
- 4) Statut fiscal: imposable ou non imposable
- 5) Palier de revenu: pour les déclarations imposables, il y a quatre paliers de revenu total et pour les déclarations non imposables, il en existe trois.

Ces caractéristiques ($3 \times (13 + 15) \times 7$) définissent 588 strates régulières. Deux autres strates sont fournies, une pour les contribuables avec des revenus particulièrement élevés et une pour les contribuables qui pour une raison quelconque, ne peuvent être inclus dans les autres strates. Donc, il y a un total de 590 cellules. Dans ces cellules, les coefficients d'échantillonnage varient de 1:1 à 1:200, les plus bas se situant dans les cellules de revenus tirés d'emplois dans les régions à population dense de l'Ontario et du Québec.

Globalement, le nombre de déclarations analysées constituait 3.6% du nombre total de déclarations traitées jusqu'au 27 janvier 1982, soit:

Nombre de déclarations analysées	14,764,870
Nombre de déclarations de l'échantillon	527,044

L'échantillonnage accélère l'analyse du grand nombre de déclarations produites et on a constaté qu'il donnait des résultats d'ensemble exacts; bien qu'on ne puisse espérer obtenir dans une analyse détaillée le même niveau d'exactitude que dans le cas de groupes plus importants, un taux plus élevé d'échantillonnage des régions et catégories comprenant peu d'individus tend à augmenter l'importance de ces groupes.

Source de renseignements—L'analyse statistique des déclarations de 1980 a été dressée aux Centres des données fiscales. Les données fondamentales de l'échantillon choisi qui avaient été reportées par perforation sur les fiches initiales de cotisation, ont été complétées par certains renseignements supplémentaires qui ont été transcrits par les employés de la statistique, reportés par perforation et réunis subséquentement aux données fondamentales. Les statistiques sont extraites des déclarations une fois celles-ci vérifiées. Une partie des déclarations fait l'objet d'une nouvelle cotisation

and printed by a computer at the Ottawa Data Centre. The source of the various statistical items is given below.

All forms referred to are for the 1980 taxation year. Two types of individual tax return forms were in use. The T1 Special form was for use by individuals filing only to receive tax credits or whose income was primarily employment income from which only usual deductions could be made. The T1 General form was for use by individuals whose tax affairs were more complicated; those who had self-employment income or capital gains or losses or dividend income; those who had less common deductions such as registered retirement savings plan or registered home ownership savings plan premiums; individuals wishing to claim exemptions for dependants other than a spouse or children or wishing to transfer deductions from their spouse, etc. Various schedules were provided for use by individuals with certain types of income or non-standard exemption claims, etc. Facsimiles of these forms can be found in the Appendix at the back of this book.

Number of Returns (Items 1-3)—This refers to the number of T1 Special and T1 General returns filed for the taxation or calendar year 1980. Final date for filing without penalty was April 30, 1981. plus tard et on ne tient pas compte de tout changement qui en résulte aux fins de la statistique. Les tableaux ont été préparés et imprimés par un ordinateur au Centre des données fiscales à Ottawa. On trouvera ci-après la source de différents postes statistiques.

Toutes les formules mentionnées concernent l'année d'imposition 1980. Deux genres de déclarations d'impôt sur le revenu des particuliers ont été distribués. La formule T1 Spéciale était destinée aux particuliers qui produisaient une déclaration dans le seul but de demander des crédits d'impôt ou dont les gains provenaient essentiellement d'un revenu d'emploi sur lequel seules les déductions habituelles étaient opérées. La formule T1 Générale était destinée aux particuliers dont la situation fiscale est plus complexe, notamment ceux qui tirent un revenu d'un travail indépendant, de gains ou de pertes en capital ou de dividendes, ceux qui ont droit aux déductions moins courantes comme celles qui visent les contributions à un régime enregistré d'épargne-retraite ou un régime enregistré d'épargne-logement, ceux qui désirent demander une exemption pour personnes à charge autre que le conjoint ou des enfants ou transférer des déductions admissibles au conjoint, etc. Diverses annexes ont été destinées à l'usage de particuliers tirant certains genres de revenus ou réclamant des exemptions non uniformes, etc. Des facsimilés de ces formules figurent à l'appendice dans la dernière partie de ce livre.

Nombre de déclarations (Postes 1-3)—Signifie le nombre réuni des déclarations T1 Générale et T1 Spéciale produites pour l'année d'imposition ou l'année civile 1980. La date ultime de production des déclarations sans encourir de pénalités était le 30 Avril 1981. On n'a pas tenu compte des secondes déclarations produites à titre de modification d'une déclaration initiale. On considère comme déclaration «imposable» celle qui donne lieu à un impôt d'un dollar ou plus; autrement, une déclaration est «non imposable».

Total Deductions (Item 55)—This is the aggregate of Items 35 to 54 inclusive.

Taxable Income Assessed (Item 56)—This is the amount taxable after deducting all exemptions and allowances. The income code used for the distribution by income classes is not based upon this figure but upon the total income, item 28. It should be noted that Workmen's Compensation Payments, Veteran's Allowances, Social Assistance, Guaranteed Income Supplement, Spouse's Allowance, Welfare Payments, Mother's Allowance and Lottery Winnings are not required to be reported and are not included in income.

Federal Tax Payable (Item 57)—This figure is the amount of Net Federal Income Tax Payable as computed by the Department. This is after deductions have been made for the Dividend Tax Credit of 25%, for the Abatement of 16.5% for Quebec Income Tax, the 1980 Federal Tax Reduction, Foreign Tax Credits, and the addition of 43% Surtax for persons not resident in Canada.

Provincial Tax Payable (Item 58)—This is the amount of Provincial Tax Payable as computed by the Department. Persons resident on the 31st December, 1980, in a province other than Quebec are liable for Provincial Income Tax on income earned in the province of residence at the rate applicable for the province. Income earned in a province outside the province of residence is liable for Provincial Income Tax applicable to the province, even if the province of residence

relatives à l'âge, invalidité, études, déductions pour intérêts, dividendes et gains en capital, déductions relatives au revenu tiré d'une pension, qui sont transférées entre conjoints.

Perte déductible au titre d'un placement d'entreprise (Poste 53)

—La perte déductible au titre d'un placement d'entreprise est une déduction, accordée pour la première fois en 1979, qui correspond à l'excédent (1) des pertes en capital d'un contribuable provenant de la disposition d'un bien qui est une action du capital-actions d'une corporation privée dont le contrôle est canadien ou d'un montant qui lui est dû par une corporation avec laquelle il n'a pas de lien de dépendance (autres que les corporations en faillite), sur (2) le montant de toute augmentation dans le prix de base rajusté du bien qui a fait l'objet de la disposition en vertu des règles sur les dispositions de biens en faveur d'une corporation contrôlée.

Bien que le montant déductible soit calculé selon les règles applicables aux autres pertes en capital, les pertes au titre d'un placement d'entreprise sont d'abord déduites du revenu de l'année courante sans tenir compte de la limite de \$2,000 qui s'applique aux autres pertes en capital.

Autres déductions (Poste 54)—Ce poste comprend les montants réclamés à cette ligne de la page 2, c'est-à-dire, les frais de déménagement, les frais financiers sur le revenu de placements, les pensions alimentaires, les primes versées en vertu d'un contrat de rentes à versements invariables, et les cotisations au Régime de pensions du Canada réclamées à l'égard des employés personnels d'un contribuable. Ce poste comprend aussi les pertes autres que des pertes en capital d'autres années, les dons à la Couronne et des remboursements de prestations d'assurance chômage provenant de la page 2 de la déclaration.

Total des déductions (Poste 55)—Il s'agit du total des postes 35 à 54 inclusivement.

Revenu imposable établi (Poste 56)—Il s'agit du montant imposable après déduction de toutes les exemptions et allocations. Le code de revenu utilisé pour la répartition par catégorie de revenu ne se fonde pas sur ce chiffre, mais bien sur le revenu total, poste 28. Il n'est pas nécessaire de déclarer les indemnités d'accidents du travail, les pensions d'invalidité de guerre, l'assistance sociale, le supplément de revenu garanti, les prestations de bien-être social, les allocations aux mères nécessiteuses et les gains de loteries, qui ne sont pas compris dans le revenu.

Impôt fédéral à payer (Poste 57)—C'est le montant d'impôt net sur le revenu à payer, calculé par le Ministère, une fois les déductions opérées relativement au dégrèvement pour dividendes de 25%, de l'abattement de 16.5% au titre de l'impôt sur le revenu du Québec, de la réduction d'impôt fédéral en 1980, du dégrèvement pour impôts étrangers et de la surtaxe additionnelle de 43% frappant les personnes ne résidant pas au Canada.

Impôt provincial à payer (Poste 58)—C'est le montant d'impôt provincial à payer calculé par le Ministère. Les personnes, qui résidaient au 31 décembre 1980 dans une province autre que le Québec, sont assujetties à l'impôt provincial sur le revenu portant sur le revenu gagné dans la province de résidence et au taux qui s'applique à cette province. Le revenu gagné dans une province autre que la province de résidence est assujetti à l'impôt provincial sur le

is Quebec. These Provincial Income Taxes are collected by the Federal Government on behalf of agreeing provinces. The Province of Quebec collects its own income tax. The amounts shown as Provincial Tax Payable are after any deductions have been made for foreign tax credits or for provincial tax reduction but are not reduced by provincial tax credits.

Total Tax Payable (Item 59)—This is the total of the amounts of Federal Tax Payable and Provincial Tax Payable. (Items 57 and 58).

Canada Pension Plan Contributions (Item 60)—This item covers the total contributions to the Canada Pension Plan payable by the individual on employment earnings and self-employed earnings. The figure is net of refunds of Canada Pension Plan Overpayment. Contributions to the Quebec Pension Plan are excluded from this item.

Basic Federal Tax (Item 61)—This is the amount of the Basic Federal Tax as calculated by the Department. It represents the Total Federal Income Tax on the taxable income plus any tax adjustments and less dividend tax credit. It is before deductions have been made for the 19 tax reductions, and before deducting abatements for Quebec Income Tax, and adding Surtax for individuals not subject to Provincial Income Tax.

Dividend Tax Credit (Item 62)—This is the amount computed as allowable dividend tax credit, which is 25% of taxable amount of dividends from taxable Canadian corporations, not exceeding the total federal income tax after adjustments.

Investment Tax Credit (Item 63)—This is the amount deducted from the total tax as the allowable investment tax credit on page 4 of the return.

Child Tax Credit (Item 64)—This credit is available to all recipients of the Family Allowance. It is \$238 per eligible child reduced by 5% of family net income over \$21,380. Shown under this heading is the total amount allowed for this credit. A further analysis of this credit is given in Tables 17 and 18.

The 1980 Rate Structure:

The tax structure was revised in 1972 as a result of tax reform legislation with new personal exemptions and a new rate schedule being introduced. The old age security and social development tax were absorbed in the new rate schedule.

The 1980 rates of federal income tax will be found in Schedule 1 reproduced in the Appendix of this book "Facsimiles of 1980 Individual Income Tax Return Forms".

revenu qui s'applique à cette province, même si la province de résidence est le Québec. Ces impôts provinciaux sur le revenu sont perçus par le gouvernement fédéral au nom des provinces qui ont signé l'entente. La province de Québec perçoit son propre impôt sur le revenu. Les montants indiqués sous le titre «Impôt provincial à payer» ont été établis après l'application des dégrèvements pour impôts étrangers ou de la réduction d'impôt provincial, mais ils ne sont pas diminués par des crédits d'impôt provinciaux.

Impôt total à payer (Poste 59)—C'est le total des montants de l'«impôt fédéral à payer» et de l'«impôt provincial à payer». (Postes 57 et 58).

Cotisations au Régime de pensions du Canada (Poste 60)—Ce poste comprend le total des cotisations payables par les particuliers au Régime de pensions du Canada sur les gains provenant d'un emploi et sur les gains tirés d'un travail autonome. Le montant a été diminué des remboursements de paiements en trop versés au Régime de pensions du Canada. Les cotisations au Régime de rentes du Québec ne sont pas comprises dans le présent poste.

Impôt fédéral de base (Poste 61)—Il s'agit du montant d'impôt fédéral de base, calculé par le Ministère. Il représente le total de l'impôt fédéral sur le revenu frappant le revenu imposable, plus tous rajustements d'impôt et moins le dégrèvement pour dividendes. C'est le montant obtenu avant que la déduction à titre de réduction d'impôt en 19 et l'abattement au titre de l'impôt sur le revenu du Québec aient été calculés et lorsque la surtaxe imposée aux particuliers non assujettis à l'impôt provincial sur le revenu a été ajoutée.

Dégrèvement au titre des dividendes (Poste 62)—C'est le montant calculé à titre de dégrèvement pour dividendes admissibles, qui est de 25% de la fraction imposable des dividendes de corporations canadiennes imposables, ne dépassant pas le total de l'impôt fédéral sur le revenu après rajustements.

Dégrèvement pour impôts à l'investissement (Poste 63)—C'est le montant déduit de l'impôt total au titre des dégrèvements accordés à la page 4 de la déclaration.

Crédit d'impôt pour enfants (Poste 64)—Ce crédit est offert à tous les bénéficiaires d'allocations familiales. Il est de \$238 par enfant admissible, moins 5% de la fraction du revenu familial en sus de \$21,380. Figure sous cette rubrique le montant total accordé pour ce crédit. Une autre analyse de ce crédit figure aux tableaux 17 et 18.

Taux de l'impôt de 1980:

À la suite de la réforme fiscale, la structure de l'impôt a été révisée en 1972 de façon à prévoir de nouvelles exemptions personnelles et un nouveau barème de taux. L'impôt de sécurité de la vieillesse et l'impôt de progrès social ont été inclus dans le nouveau barème de taux.

Le taux de l'impôt fédéral sur le revenu pour 1980 figure à l'Annexe 1, dans la section suivante de la présente brochure, sous la rubrique «Fac-similés de formules de Déclarations d'impôt sur le revenu des particuliers de 1980».

the provincial and territorial rates as a percentage of basic Federal Tax are as follows:

Newfoundland	58 %
Prince Edward Island	52.5%
Nova Scotia	52.5%
New Brunswick	55.5%
Ontario	44 %
Manitoba	54 %
Saskatchewan	53 %
Alberta	38.5%
British Columbia	44 %
Northwest Territories	43 %
Yukon	43 %

The Federal-Provincial Fiscal Arrangements Act continued in effect with provincial taxes calculated as a percentage of Basic Federal Tax. The only abatement is that for Quebec income tax which for persons resident in Quebec amounted to 16.5% of their "Reduced Basic Federal Tax". For those provinces which made agreements under the Federal-Provincial Fiscal Arrangements Act, and on whose behalf the federal government agreed to collect the provincial income tax, a provincial income tax was levied. No provincial income tax was collected by the federal government on behalf of the Province of Quebec which collects its own income taxes. Individuals not resident in Canada are required to add a surtax equal to 43% of their "Reduced Basic Federal Tax" because they are not subject to provincial income tax.

The basic personal exemption was increased from \$2,650 to \$2,890 and the married or equivalent exemption from \$2,320 to \$2,530. Exemptions in effect for 1980 are outlined below.

Persons taxed as single—\$2,890.

Persons taxed as married—\$5,420. This exemption was reduced by the amount by which the income of the spouse exceeded \$460 until the spouse's income exceeded \$2,990 at which point both married person and spouse became taxable as single.

Additional exemption for persons 65 years of age and over—\$1,810.

Children under age 18—\$540 for each child whose net income was not over \$1,910. If over \$1,910 but not over \$2,990, a reduced exemption could be claimed.

Children age 18 or over—\$990 for each child whose net income was not over \$2,000. If over \$2,000, but not over \$2,990, a reduced exemption could be claimed.

Other dependants—These consist of parents, grandparents, brothers or sisters, aunts or uncles resident in Canada. The exemption is limited to the amount spent in support up to a maximum of \$540 for dependants under age 18 and \$990 for dependants age 18 or over.

Les taux provinciaux et territoriaux, comme un pourcentage de l'impôt fédéral de base, comme suite:

Terre Neuve	58 %
Île du Prince-Édouard	52.5%
Nouvelle-Écosse	52.5%
Nouveau-Brunswick	55.5%
Ontario	44 %
Manitoba	54 %
Saskatchewan	53 %
Alberta	38.5%
Colombie-Britannique	44 %
Territoires du Nord-Ouest	43 %
Yukon	43 %

La Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces a été maintenue en vigueur; les impôts provinciaux sont calculés comme pourcentage de l'impôt fédéral de base. Le seul abattement s'applique à l'impôt sur le revenu du Québec qui, pour les personnes résidant au Québec, s'élève à 16.5% de l'«Impôt fédéral de base réduit». Un impôt provincial sur le revenu a été institué par les provinces ayant conclu un accord en vertu de la Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces et pour le compte desquelles le gouvernement fédéral a accepté de percevoir l'impôt provincial sur le revenu. Aucun impôt provincial sur le revenu n'a été perçu par le gouvernement fédéral pour le compte de la province de Québec, puisqu'elle administre son propre régime de perception. Les particuliers résidant hors du Canada sont tenus d'ajouter une surtaxe égale à 43% de l'«Impôt fédéral de base réduit» parce qu'ils sont exonérés de l'impôt provincial sur le revenu.

L'exemption personnelle de base a été portée de \$2,650 à \$2,890 et l'exemption de marié ou l'équivalent de \$2,320 à \$2,530. Les exemptions en vigueur en 1980 sont exposées ci-après.

Contribuable imposé à titre de célibataire—\$2,890.

Contribuable imposé à titre de marié—\$5,420. Cette exemption subit une réduction égale au montant du revenu du conjoint qui dépasse \$460 mais qui n'est pas supérieur à \$2,990; quand ce revenu excède \$2,990, le contribuable marié et son conjoint deviennent tous deux imposables à titre de célibataires.

Exemption supplémentaire pour les personnes âgées de 65 ans ou plus—\$1,810.

Enfants de moins de 18 ans—\$540 pour chaque enfant dont le revenu net ne dépasse pas \$1,910. S'il est supérieur à \$1,910 mais pas plus élevé que \$2,990, une exemption réduite peut être réclamée.

Enfants de 18 ans ou plus—\$990 pour chaque enfant dont le revenu net ne dépasse pas \$2,000. S'il est supérieur à \$2,000 mais pas plus élevé que \$2,990, une exemption réduite peut être réclamée.

Autres personnes à charge—Ceci comprend les parents, les grands-parents, les frères ou les soeurs, les tantes ou les oncles résidant au Canada. L'exemption est limitée au montant versé pour leur entretien, jusqu'à concurrence de \$540 si ces personnes étaient âgées de moins de 18 ans et de \$990 si elles étaient âgées de 18 ans ou plus.

Description of Basic Tables

GENERAL NOTE:

In all tables, breakdowns with less than ten taxpayers do not show any figures in that breakdown. These figures are, however, included in all subtotals and overall totals.

TABLE 1 — GENERAL STATEMENT BY PROVINCE

This table shows the most significant income and tax statistics by province. The figures for taxable and non-taxable returns are shown both separately and consolidated. *In this table, and only in this table, the allocation of returns by province or territory is on the basis of the province in which the residence of the taxpayer was located on 31st December 1980, as reported on the front of the return except in the case of multiple jurisdiction returns (i.e. returns of business men and professionals who earn income in more than one province) which are handled as all returns in other tables. If the individual filing the return resided outside of Canada on 31st December, his return, in this table, has been included with "Non-residents". In all other provincial tables, the allocation is on the basis of the taxpayer's address at the time of filing. The amounts of Federal Tax Payable, and Provincial Tax Payable, are as assessed.*

TABLE 2 — ALL RETURNS BY INCOME CLASS

In this table all returns are classified according to the size of total income assessed. Under each income class heading there are two columns. The first column indicates the occurrence or number of all returns which had the item in question and the second column indicates the dollar amount involved for the tax returns in the income class. Each income class contains returns with total income starting at the lower limit of the income range up to but not including the upper limit of the range. For example, the income class marked \$1,500 to \$1,750 includes all returns with total incomes of \$1,500 or more up to but not including incomes of \$1,750. Some returns with less than \$2,500 income are taxable which requires an explanation since normally the exemptions are at least \$2,890. This is possible in the case of: (1) returns filed by certain non-residents of Canada in respect of income from Canada which is not subject to personal exemptions; (2) individuals resident in Canada for only a part of a taxation year who are taxed upon income which they earned during their period of residence in Canada with their exemptions prorated to the same period and (3) certain returns which are taxable only in respect of lump sum pension payments which are excluded from the total income under transitional provisions of the Act. No taxable income is reported on such returns and the exemptions may exceed the total income recorded. A small portion of returns in the higher income classes may be classified as non-taxable. This can arise because business or farm losses of earlier years may offset the current year's income, or because of such factors as foreign tax credits, unusual medical expenses, allowable deductions from investment income or gifts to the Crown. For similar data on taxable returns only see Table 2A.

Description des tableaux de base

NOTE GÉNÉRALE:

Dans tous les tableaux, la répartition avec moins de dix contribuables, n'est pas montrée, mais comprise dans tous les sous-totaux et les totaux.

TABLEAU 1 — ÉTAT GÉNÉRAL, PAR PROVINCE

Les éléments les plus importants de la statistique du revenu et de l'impôt sur le revenu par province ont été réunis dans ce tableau. Les statistiques des revenus imposables et des revenus non imposables sont données séparément et globalement. *C'est seulement dans ce tableau que la répartition des déclarations par province se fonde sur la province de résidence du contribuable au 31 décembre 1980, indiquée en première page de la déclaration à l'exception des déclarations à juridictions multiples (p. e. les déclarations des hommes d'affaires et des professionnels gagnant leur revenu dans plus d'une province) lesquelles sont comprises dans toutes les déclarations dans les autres tableaux. Si le contribuable résidait hors du Canada au 31 décembre, sa déclaration aux fins du tableau a été attribuée à «Non-résidents». Dans tous les autres tableaux qui donnent une répartition par province, cette répartition a été faite d'après l'adresse du contribuable à l'époque où il a produit sa déclaration. Les montants d'«impôt fédéral à payer» et d'«impôt provincial à payer» correspondent aux cotisations établies.*

TABLEAU 2 — TOUTES LES DÉCLARATIONS, PAR CATÉGORIE DE REVENU

Dans ce tableau, toutes les déclarations sont classées d'après l'importance du revenu total établi. Chaque rubrique de catégorie de revenu comporte deux colonnes. La première colonne indique le nombre de déclarations dans lesquelles figurait le poste en question et la seconde, le montant en dollars dont les déclarations dans cette catégorie de revenu faisaient état. Dans chaque catégorie de revenu, le montant du revenu total commence à la limite la plus basse de la catégorie de revenu mais ne comprend pas la plus élevée. La catégorie de \$1,500 à \$1,750, par exemple, comprend toutes les déclarations comportant un revenu total allant de \$1,500 à \$1,749 inclusivement. Certaines déclarations comportant un revenu inférieur à \$2,500 sont imposables, ce qui exige une explication puisque normalement les exemptions sont d'au moins \$2,890. Cela se produit dans les cas où (1) les déclarations produites par certains non-résidents du Canada à l'égard du revenu de provenance canadienne ne comportent pas d'exemptions personnelles; (2) les particuliers qui résident au Canada seulement une partie de l'année d'imposition font l'objet d'une cotisation sur le revenu qu'ils ont gagné pendant la période de résidence au Canada, les réductions étant calculées au prorata pour la même période; et (3) certaines déclarations ne sont effectivement imposables qu'en ce qui a trait à des paiements forfaitaires de pensions exclus du revenu total en vertu des dispositions transitoires de la Loi. Aucun revenu imposable n'est indiqué dans ces déclarations et les exemptions peuvent être supérieures au revenu total déclaré. Une faible proportion des déclarations qui se trouvent dans les paliers de revenu les plus élevés peuvent être classées comme non imposables. Cela peut se produire lorsque des pertes commerciales ou agricoles d'années antérieures réduisent le revenu de l'année courante ou lorsque certains facteurs, comme les dégrèvements pour impôts étrangers, les frais médicaux sortant de l'ordinaire, les réductions admises sur le revenu de placements et les

donc à la Couronne, entrent en ligne de compte. Pour des données semblables concernant uniquement les déclarations imposables, se reporter au Tableau 2A.

TABLE 2A — TAXABLE RETURNS BY INCOME CLASS

In this table taxable returns are classified according to the size of total income assessed. Under each income class heading there are two columns. The first column indicates the occurrence or number of taxable returns which had the item in question and the second column indicates the dollar amount involved for the taxable returns in the income class. Each income class contains returns with total income starting at the lower limit of the income range up to but not including the upper limit of the range. For example, the income class marked \$1,500 to \$1,750 includes all returns with total income of \$1,500 or more up to but not including incomes of \$1,750. Some returns with less than \$2,500 income are taxable which requires an explanation since normally the exemptions are at least \$2,890. This is possible in the case of: (1) returns filed by certain non-residents of Canada in respect of income from Canada which is not subject to personal exemptions; (2) individuals residents in Canada for only a part of a taxation year who are taxed upon income which they earned during their period of residence in Canada with their exemptions prorated to the same period and (3) certain returns which are taxable only in respect of lump sum pension payments which are excluded from the total income under transitional provisions of the Act. No taxable income is reported on such returns and the exemptions may exceed the total income recorded. For similar data on all returns see Table 2.

TABLE 3 — ALL RETURNS BY OCCUPATION

In this table all returns are classified according to occupation. Taxable returns and all returns are analyzed in alternate columns. *This classification is based in the main on the taxpayer's method of earning income rather than strictly on the type of work performed.* This procedure has been followed because the source of income has been found to be a systematic and uniform method of classification, whereas the descriptions supplied by many individuals are not uniform.

Professionals as classified here are *self-employed persons with professional fees as their principal source of income.* Professionals earning the major part of their income in the form of salary are classified as employees. As a result, the number of doctors, lawyers, etc. shown here is likely to be less than the number shown in professional directories. The classification "Other professionals" includes such professionals as nurses, osteopaths, chiropractors, surveyors, veterinarians, tax consultants, and investment counsellors. The large employee class has been subdivided according to whether the taxpayer is employed by a business, an institution or a school, or some form of government body. Employees of individuals or farmers and other employees who cannot be included elsewhere, are shown as "unclassified employees". Employees of Crown Corporations are

TABLEAU 2A — DÉCLARATIONS IMPOSABLES, PAR CATÉGORIE DE REVENU

Les déclarations imposables dans ce tableau sont classées selon l'importance du revenu total établi. Chaque rubrique de catégorie de revenu comporte deux colonnes. La première colonne indique le nombre de déclarations imposables dans lesquelles figurait le poste en question et la seconde, le montant en dollars dont les déclarations imposables dans cette catégorie de revenu faisaient état. Dans chaque catégorie de revenu, le montant du revenu total commence à la limite la plus basse de la catégorie de revenu mais ne comprend pas la plus élevée. La catégorie de \$1,500 à \$1,750, par exemple, comprend toutes les déclarations comportant un revenu total allant de \$1,500 à \$1,749 inclusivement. Certaines déclarations comportant un revenu inférieur à \$2,500 sont imposables, ce qui exige une explication, puisque normalement les exemptions sont d'au moins \$2,890. Cela se produit dans les cas où (1) les déclarations produites par certains non-résidents du Canada à l'égard du revenu de provenance canadienne ne comportent pas d'exemptions personnelles; (2) les particuliers qui résident au Canada seulement une partie de l'année d'imposition font l'objet d'une cotisation sur le revenu qu'ils ont gagné pendant la période de résidence au Canada, les déductions étant calculées au prorata pour la même période; et (3) certaines déclarations ne sont effectivement imposables qu'en ce qui a trait à des paiements forfaitaires de pensions exclus du revenu total en vertu des dispositions transitoires de la Loi. Aucun revenu imposable n'est indiqué dans ces déclarations et les exemptions peuvent être supérieures au revenu total déclaré. Pour des données semblables concernant l'ensemble des déclarations, se reporter au Tableau 2.

TABLEAU 3 — TOUTES LES DÉCLARATIONS, PAR PROFESSION

Toutes les déclarations dans ce tableau sont classées selon la profession. Les déclarations imposables et toutes les déclarations, font l'objet d'une analyse dans des colonnes alternantes. *Le classement des particuliers se fonde surtout sur la façon de gagner le revenu plutôt que sur le genre de travail accompli.* Nous avons adopté cette méthode parce que nous avons trouvé que la source du revenu est une méthode systématique et uniforme de classement, alors que les descriptions qui nous sont fournies par plusieurs particuliers ne sont pas uniformes.

Les professionnels dont il est question ici sont *des personnes établies à leur propre compte dont la source principale de revenu est constituée par les honoraires professionnels.* Les professionnels qui gagnent la plus grande partie de leur revenu sous forme de salaire sont classés comme étant des employés. Ainsi, il est probable que le nombre de médecins, avocats, etc. indiqué ici soit moindre que le nombre qui est indiqué dans le répertoire des professions. La catégorie «Autres professions libérales» comprend les infirmières, ostéopathes, chiropraticiens, arpenteurs, vétérinaires, spécialistes en impôt, conseillers en placements. La vaste catégorie des employés a été subdivisée selon que le contribuable est au service d'une entreprise commerciale, d'une institution ou école ou d'une forme quelconque

shown as employees of businesses rather than as government employees. The classification "Teachers and professors" excludes non-teaching employees of schools and colleges. The classification "Salesmen" includes only those reporting "Commission Income from Self-Employment" as their principal source of income. Business proprietors or partners, with or without employees, are subdivided according to the type of business. A proprietor who conducts two different types of business is classified to the type which has the larger gross. Individuals who derive the bulk of their income from the rental of real estate are shown as "property owners". "Unclassified" includes those whose principal source of income is alimony or certain miscellaneous types of incomes such as hunters, trappers and guides.

TABLE 4 — ALL RETURNS BY AGE AND SEX

In this table all returns are classified by five year age groups, beginning with "under 20" and running to "65 and over", and within each of these groups by sex. Taxable returns and all returns are analyzed in alternate columns. This age classification is based upon information on the front of the return as to date of birth. A number of returns were received which lacked information as to age and these are not analyzed separately but are included in the Grand Total. A more detailed age analysis is shown in Tables 9 and 9A.

TABLE 5 — ALL RETURNS BY CITIES OR PLACE OF RESIDENCE

In this table, all returns are classified according to the address on the return at the time of filing. Taxable returns and all returns are analyzed in alternate columns. Cities which are defined as metropolitan areas are in accordance with definitions employed in the 1976 census, except that they do not include areas in adjacent counties but only within the county or Census Division in which they are mainly situated. In a few instances the census metropolitan area has been subdivided, namely, Halifax and Dartmouth, Quebec and Lévis, Ottawa and Hull, Vancouver and New Westminster. This detailed analysis is only available for those centers in each province which are shown on the table. Where taxpayers reside outside the specifically covered localities they have been included under the caption "Other Areas" within the province concerned. An income breakdown of the number of returns for each city shown in this table will be found in Table 1, Part 2. In this table it will be noted that some Provincial Tax Payable is shown for residents of Quebec Province, although the Federal Government does not collect Provincial Income Tax on behalf of Quebec

d'organisme gouvernemental. Les employés au service de particuliers et de cultivateurs, de même que les autres employés ne pouvant être inclus dans aucune autre catégorie figurent parmi les «Employés non classés». Les employés de sociétés de la Couronne sont classés comme employés d'entreprises commerciales et non comme employés de l'État. La catégorie «Instituteurs et professeurs» ne comprend pas les non-enseignants au service d'écoles et de collèges. La catégorie «Vendeurs» ne comprend que ceux qui déclarent un «Revenu de commissions provenant d'un travail autonome» comme principale source de revenu. Les propriétaires ou associés d'entreprise, ayant des employés ou non, sont subdivisés selon le genre d'entreprise. Le propriétaire qui exerce deux genres différents d'entreprise est classé selon le genre de l'entreprise qui rapporte le plus fort revenu brut. Les particuliers dont la majeure partie du revenu provient de la location de propriétés immobilières sont indiqués sous le titre «Propriétaires». La catégorie «Non classés» comprend ceux dont la principale source de revenu est représentée par une pension alimentaire ou ceux qui touchent divers genres de revenu, par exemple les chasseurs, les trappeurs et les guides.

TABLEAU 4 — TOUTES LES DÉCLARATIONS, PAR ÂGE ET SEXE

Dans ce tableau, toutes les déclarations sont réparties par groupes d'âge de 5 ans à partir de «moins de 20 ans» jusqu'à «65 ans et plus», chacun de ces groupes étant divisé selon le sexe. Les déclarations imposables et toutes les déclarations, imposables ou non, font l'objet d'une analyse dans des colonnes alternantes. Ce tableau se fonde sur les renseignements fournis en première page des déclarations quant à la date de naissance. Un certain nombre de déclarations ne donnaient pas l'âge: aucune analyse de ces déclarations n'a été faite séparément, mais elles sont comprises dans le total global. Les tableaux 9 et 9A présentent une analyse plus détaillée par âge.

TABLEAU 5 — TOUTES LES DÉCLARATIONS, PAR VILLE OU LIEU DE RÉSIDENCE

Dans ce tableau, toutes les déclarations sont classées d'après l'adresse indiquée sur la déclaration lors de la production. Les déclarations imposables et toutes les déclarations, imposables ou non, font l'objet d'une analyse dans des colonnes alternantes. Les villes qui sont désignées comme étant des régions métropolitaines le sont en conformité des définitions employées dans le recensement de 1976, sauf qu'elles ne comprennent pas les secteurs des comtés adjacents, mais seulement ceux situés à l'intérieur du comté ou de la division de recensement où ils sont situés en majeure partie. Dans certains cas, les régions métropolitaines du recensement ont été subdivisées, comme Halifax et Dartmouth, Québec et Lévis, Ottawa et Hull, Vancouver et New Westminster. Seulement un certain nombre des principaux centres dans chaque province ont fait l'objet d'une telle analyse détaillée ainsi que l'indique le tableau. Les contribuables qui résident hors des endroits mentionnés ont été inscrits sous la rubrique «Autres régions» de leur province. La décomposition du nombre des déclarations, selon le revenu, pour chaque ville indiquée dans ce tableau, est

Province. These amounts shown by residents of Quebec are collected on income earned in other provinces.

TABLE 6 — TAXABLE RETURNS BY MARITAL STATUS, DEPENDANTS AND INCOME

This table provides a distribution by total income class of all taxable returns, according to marital status for tax purposes and number of dependants. A number of persons whose incomes are less than the amount of the exemptions for married persons are taxed as married. These are persons whose spouses received incomes in excess of \$460, but not over \$2,990 therefore resulting in a reduced exemption. *The number of dependants shown does not include wives or dependants claimed in order to establish married or equivalent exemption.* For similar data on all returns see Table 6A.

TABLE 6A — ALL RETURNS BY MARITAL STATUS, DEPENDANTS AND INCOME

This table provides a distribution by total income class of all returns, taxable and non-taxable, according to marital status for tax purposes and number of dependants. A number of persons whose incomes are less than the amount of the exemptions for married persons are taxed as married. These are persons whose spouses received incomes in excess of \$460, but not over \$2,990 therefore resulting in a reduced exemption. *The number of dependants shown does not include wives or dependants claimed in order to establish married or equivalent exemption. For similar data on taxable returns only see Table 6.*

TABLE 6B — ALL RETURNS BY MARITAL STATUS AND SEX

In this table all returns both taxable and non-taxable are classified by sex and by actual marital status in addition to the classification by marital status for tax purposes. The information concerning actual marital status has been tabulated from the entry on page 1 of the tax return describing taxpayer's marital status as at 31st December. The column "widowed or divorced" includes "separated".

TABLE 7 — ALL RETURNS BY PROVINCE AND INCOME

In this table the taxable returns and all returns for each province have been distributed by total income class. Allocation to a province is based on the taxpayer's address at the time of filing.

donnée dans le tableau 1, Partie 2. A remarquer que ce tableau indique des montants d'«Impôt provincial à payer» par des résidents de la province de Québec bien que le gouvernement fédéral ne perçoive pas l'impôt provincial sur le revenu pour le compte de la province de Québec. Ces montants indiqués par des résidents du Québec sont perçus sur le revenu gagné dans d'autres provinces.

TABLE 13 — DISTRIBUTION OF GROSS AND NET INCOME BY PROVINCE

Distribution of Gross and Net Income—Provinces and Canada—This table is presented to show the amount of gross income reported by taxpayers and to show its relation to the net income reported in the tax returns.

Where the return is for a partner in a business or other type of enterprise, the partner's percentage share of the net income was recorded, and the corresponding share of the gross income of the partnership was used in compiling this table.

In some instances the gross income was not obtainable but in each case the net was extracted and identified as a

TABEAU 13 — RÉPARTITION DU REVENU BRUT ET NET PAR PROVINCE

Répartition du revenu brut et net—Provinces et Canada—Ce tableau fait voir le montant de revenu brut déclaré par les contribuables et le rapport existant entre celui-ci et le revenu net indiqué dans les déclarations.

Lorsqu'il s'agit de la déclaration d'un associé dans une entreprise commerciale ou dans un autre genre d'entreprise, la part de l'associé du revenu net a été inscrite, et la partie correspondante du revenu brut de la société en nom collectif a été employée dans le calcul de ce tableau.

Dans certains cas, on n'a pu obtenir le revenu brut. En tels cas, on a estimé le revenu net et on l'a désigné comme

«net», for which the corresponding gross was not available. In the final tabulation the gross income was increased to compensate for the figures not originally obtained. The basis of the percentage increase was obtained by comparing the gross for each specific type of income with the related net income within a province; the net income tabulated where there was no corresponding gross was then increased by this factor to derive the unreported gross. The amount of capital cost allowance as specified in the Capital Cost Allowance schedule (Schedule 8) under the heading "Capital Cost Allowance for 1980", column 7, and, for farmers or fishermen, the total of the entries in column 6 of the separate schedule, has been accumulated and shown for each province and for each type of income in this table. As in the case of the gross income, the reported Capital Cost Allowance is increased by an inflation factor to compensate for figures not originally available.

The Capital Cost Allowance attributed to a partner is the total of the partner's claim in wholly owned assets, plus his share in the claim of the partnership.

Both taxable and non-taxable returns are included in this table. Returns with addresses outside Canada are included in the totals for Canada.

TABLE 14 — ALL RETURNS WITH CLAIM FOR PERSONAL EXEMPTIONS BY INCOME CLASSES

In this table all returns taxable and non-taxable are distributed by income classes and the personal exemption claims and the incomes of spouse and dependants are analyzed. The data have been tabulated from the "Claim for Personal Exemptions" on Page 2 of the return and also from the "Additional Personal Exemptions" claimed on Schedule 6.

The items tabulated here have already been defined in the description of items 29 to 33 earlier in this text. The following additional notes cover the treatment of personal exemptions claims in this table:

Non-residents and certain others not entitled to claim personal exemptions are excluded. Only those taxed as single and claiming the basic personal exemption are counted under the heading "Single—Basic Personal Exemption". Those claiming Age and Disability Exemptions are also included in the counts under Single or Married or Equivalent Exemptions. Incomes of dependants are recorded only to a maximum of 5 dependants; if there are more than 5, the five largest incomes are recorded.

Persons claiming exemptions for wholly dependent children are dealt with separately under the \$540 and \$990 claims and these in turn are subdivided into those claiming the maximum or the reduced exemption. The \$540 exemption is reduced if the dependant earns in excess of \$1,910, and the \$990 exemption is reduced if the dependant earns in excess of \$2,000. The number of returns claiming from one to 6 or more wholly dependent children is tabulated and placed in the second final column. From this amount the total number of dependants is tabulated and shown in the final column.

revenu «net» dont le revenu correspondant n'était pas disponible. Dans le dernier calcul on a augmenté le montant du revenu brut pour tenir compte des chiffres non disponibles. La proportion de cette augmentation a été obtenue de la façon suivante: pour chaque genre déterminé de revenu, on a établi le rapport entre le revenu brut et le revenu net dans une même province; le revenu net auquel ne correspond aucun revenu brut a ensuite été augmenté suivant le rapport obtenu, ce qui a donné le revenu brut non déclaré. On a réuni et réparti par province et par catégorie de revenu, dans ce tableau, le montant des déductions pour amortissement pré-cisées dans la colonne 7 intitulée «Déductions pour amortissement», du tableau (Annexe 8) de la déduction pour amortissement et, dans le cas des cultivateurs et des pêcheurs, le total des montants figurant dans la colonne 6 du tableau distinct. Comme dans le cas du revenu brut, on a augmenté la «Déduction pour amortissement» par un coefficient d'inflation afin de tenir compte des chiffres non disponibles.

La déduction pour amortissement attribuée à un associé est le total de la réclamation de l'associé portant sur les biens qui lui appartiennent en totalité plus la partie de sa réclamation portant sur la société en nom collectif.

Les déclarations imposables et non imposables sont toutes deux prises en ligne de compte. Les déclarations portant des adresses hors du Canada sont comprises dans les totaux pour le Canada.

TABLEAU 14 — TOUTES LES DÉCLARATIONS COMPORTANT DES DEMANDES D'EXEMPTIONS PERSONNELLES, PAR CATÉGORIE DE REVENU

Ce tableau, qui répartit toutes les déclarations imposables et non imposables par catégorie de revenu, analyse les exemptions personnelles réclamées et les revenus du conjoint et des personnes à charge. Les données ont été tirées de la section des «Demandes d'exemptions personnelles» à la page 2 de la déclaration, de même que des «Exemptions personnelles supplémentaires» réclamées à l'Annexe 6.

Les postes analysés ont déjà été définis auparavant dans le présent texte dans la description des postes 29 à 33. Les remarques supplémentaires suivantes expliquent le traitement des demandes d'exemptions personnelles figurant dans ce tableau:

Les non-résidents et certaines autres personnes n'ayant pas le droit de réclamer d'exemptions personnelles sont exclus. Seules les personnes imposées à titre de célibataires et réclamant l'exemption personnelle de base, sont comptées sous la rubrique «Célibataires—Exemptions personnelles de base». Les personnes qui réclament l'exemption en raison d'âge ou la déduction pour invalidité sont également comprises dans les dénombrements figurant sous les rubriques «Exemption de célibataire» ou «Exemption de marié» ou l'équivalent. Les revenus des personnes à charge sont inscrits jusqu'à un maximum de 5 seulement; s'il y en a plus de 5, les cinq revenus les plus importants sont inscrits.

Les réclamations d'exemptions pour des enfants entièrement à charge sont divisées en deux catégories distinctes de \$540 et de \$990, qui sont ensuite subdivisées en deux autres catégories, les réclamations d'exemptions maximales et les réclamations d'exemptions réduites. L'exemption de \$540 sera réduite si le revenu de la personne à charge dépasse \$1,910 et l'exemption de \$990 le sera si le revenu de la per-

sonne à charge est supérieur à \$2,000. On fait le dénombrement des déclarations comportant des réclamations à l'égard de 1 à 6 enfants ou plus entièrement à charge et, dans la dernière colonne, on détermine le nombre total de personnes à charge pour chaque catégorie indiquée.

TABLE 15—ALL RETURNS WITH CHILD CARE EXPENSE CLAIMS

In this table taxable returns and all returns taxable and non-taxable with child care expenses claimed in Schedule 5 are distributed by income class. Expenses may be claimed either by a working mother or by a father who was single, a widower, divorced or separated, or whose wife was infirm or in an institution. In each class the number of children claimed, total payments for care and allowable deductions for child care expenses are shown. Also shown are the number claiming a deduction under Limitation A, B, C or claiming the total amount of payments as described in Schedule 5.

TABLEAU 15—TOUTES LES DÉCLARATIONS COMPORTANT DES RÉCLAMATIONS DE FRAIS DE GARDE D'ENFANTS

Ce tableau donne la répartition, par catégorie de revenu, des déclarations imposables et de toutes les déclarations imposables et non imposables comportant des réclamations de frais de garde d'enfants selon l'Annexe 5. Ces frais peuvent être réclamés par une mère qui travaille ou un père qui est célibataire, veuf, divorcé ou séparé ou dont la femme est atteinte d'incapacité ou est placée dans un établissement.

On trouvera, pour chaque catégorie, le nombre d'enfants inscrits, le total des sommes versées pour la garde des enfants et les déductions autorisées au titre de frais de garde d'enfants. Le nombre de personnes réclamant une déduction selon les limites A, B, C ou réclamant le montant total des paiements figurant à l'Annexe 5 est également indiqué.

TABLE 16—ALL RETURNS WITH TAXABLE CAPITAL GAINS OR ALLOWABLE CAPITAL LOSSES

This table analyzes the principal sources of capital gain or loss as reported in Schedule 2, "Statement of Capital Dispositions". This statement contains a "Summary of Capital Gains" from which these data are obtained. The net gain or loss reported on the three major items—shares, real estate and bonds and other properties—are distributed by income class and broad occupation class. The remaining three items—information slips, personal use property and listed personal property are here combined under the heading "All Other Gains or Losses". Total capital gain or loss from all sources has been segregated into gains and losses, and likewise for the taxable gain or allowable loss field. The taxable capital gain is one-half of the total capital gain but allowable losses are limited to \$2,000 maximum in the current year although the excess may be carried over to reduce taxable capital gains and other income in future years.

TABLEAU 16—TOUTES LES DÉCLARATIONS COMPORTANT DES GAINS EN CAPITAL IMPOSABLES OU DES PERTES EN CAPITAL DÉDUCTIBLES

Ce tableau donne l'analyse des principales sources de gains ou de pertes en capital déclarées à l'Annexe 2, sous la rubrique «État des dispositions de biens en immobilisations». Cet état comprend un «Sommaire des gains en capital» d'où ces données sont tirées. La perte ou le gain net en capital déclaré relativement aux trois principaux postes actions, biens immeubles et autres biens est réparti par catégorie de revenu et par catégorie générale d'emploi. Les autres trois postes, feuillets de renseignements, biens à usage personnel et biens personnels désignés sont groupés ici sous la rubrique «Tous autres gains ou pertes». Le total des gains ou des pertes en capital de toute provenance a été divisé en gains et pertes; il en est de même pour les gains imposables et les pertes déductibles. Le montant des gains en capital imposable est égal à la moitié du total des gains en capital mais le montant des pertes déductibles ne doit pas dépasser \$2,000 pour l'année courante. Toutefois, l'excédent peut être reporté aux années suivantes pour réduire les gains en capital imposables et les autres revenus.

Note: The ranking in this table is based on the average income of all returns. The information was collected from our universe master file and is not from our sample used to tabulate statistics for the other tables. Therefore, there will be some differences between this data and information tabulated in table 5.

Cities included in this table have a population of 17,150 or more taxpayers for the 1980 tax year. Consequently, the average incomes here are not necessarily the 100 highest average incomes in Canada. Further information is available on these and other localities in basic table 5 and geographic tables 1 and 2.

For the 1980 taxation year, changes were made to the locality boundary definitions for the province of Québec to more adequately reflect those designated by the 1976 Census.

Note: Le rang dans ce tableau est selon le revenu moyen. L'information a été tirée de notre dossier général et non de l'échantillon servant pour les autres tableaux, c'est pourquoi ce tableau est différent du tableau 5.

Les villes incluses dans ce tableau sont celles avec une population de 17,150 et plus déclarants pour 1980. Conséquemment, le revenu moyen dans ce tableau n'est pas nécessairement le plus haut au Canada. On peut obtenir d'autres informations sur ces villes et autres localités dans le tableau de base 5 et dans les tableaux géographiques 1 et 2.

Les limites des localités de la province de Québec ont été modifiées pour l'année d'imposition 1980 afin d'être en accord avec celles du Recensement de 1976.

Basic Tables of Individual Statistics

Negative figures are indicated by a minus sign (—) following the figure.

Money figures may not add to total due to rounding, or editing.

A blank in a column of money figures indicates nil or too small to be expressed (Under \$500).

Tableaux de base de la statistique concernant les particuliers

Les chiffres négatifs sont indiqués par le signe (—) après le chiffre.

Les montants en dollars ayant été arrondis ou édités, il peut arriver qu'en les additionnant, on n'obtienne pas les totaux indiqués.

Un espace laissé en blanc dans une colonne de montants en dollars indique un montant néant ou trop petit pour être exprimé (Moins de \$500).

(1) Assessed taxable income does not equal total income less total exemptions and deductions because some returns in which exemptions and deductions exceed the total income are taxable (in respect of lump sum payments) but the taxable income is recorded as zero in such instances. While taxable income is recorded on some non-taxable returns, no tax is payable in such cases after the application of tax adjustments and tax credits.

Note: See page 9 and following for a description of this table and of all items of data.

(1) Le revenu imposable établi n'est pas égal au revenu total moins toutes les exemptions et les déductions parce que certaines déclarations, dans lesquelles les exemptions et les déductions dépassent le revenu total, sont assujetties à l'impôt (à l'égard de paiements forfaitaires), mais le revenu imposable est indiqué comme étant néant dans de tels cas. Bien que certaines déclarations non imposables font état d'un revenu imposable, aucun impôt n'est à payer en pareils cas après l'application des redressements et des dégrèvements d'impôt.

Remarque: On trouvera aux pages 9 et suivantes une explication de ce tableau et de tous les postes qui le composent.

Description of Tables in Part 2

In Part 2 all data presented is derived from the Universe of all taxfilers rather than from a sample of any kind. Both tables included here are tabulated from what is known as the Locality Code Statistics File. This file is developed in the following manner:

As each income tax return is processed in one of the Taxation Centres, a computer generated code delineating the geographical area of the return is assigned to it. This code is assigned by matching the address to an exhaustive list of place names and all known variations and associated codes which are based on the 1976 census definitions. In certain instances small groups of towns or rural areas are assigned to one code as the population of each individual place is too small to consider separately. Rural addresses are coded to the locality providing postal service to it. For example, R.R. 1, Renfrew is assigned to the code which delineates Renfrew. In addition, where post offices of one town serve another town as well, both towns are coded in the same manner, as the assignment is based on the mailing address. This problem is particularly evident when looking at the subdivisions of Toronto, Montreal and Vancouver in Table 1. As all tabulations are based on these locality codes, it is not possible to generate statistics on a single village if its returns have been included with a group of villages under one code.

Thus, because of the methodology used in this data collection process it may be seen that the statistics produced may deviate somewhat from the actual, or seem inflated in certain areas and deflated in others in relation to the actual population.

TABLE 1—ALL RETURNS BY COUNTIES OR CENSUS DIVISIONS AND SELECTED LOCALITIES

In this table, data on taxable and all returns is tabulated for counties, census divisions, and selected localities. For taxable returns, the number, total wages, salaries and commissions from employment, total income, and total tax payable are shown from each area. For all returns, the number, total wages, salaries and commissions from employment, and total income are shown. A distribution of the number of all returns by income range is also tabulated for each area. The figures for each county or census division include the figures for each of the selected localities within the area which appear immediately beneath the county or census division figures. Cities which are defined as metropolitan areas are in accordance with definitions employed in the 1976 census, except that they do not include areas in adjacent counties but only those within the county or census division in which they are mainly situated. In a few instances the census metropolitan area has been subdivided, namely, Halifax and Dartmouth, Montreal, Quebec and Levis, Ottawa and Hull, Toronto, and Greater Vancouver.

Income and tax data on a number of additional cities and towns not covered in this table are shown in Table 2 of this Part.

Description des tableaux de la partie 2

Dans la Partie 2, toutes les données découlent de l'univers de tous les contribuables ayant produit une déclaration et non d'échantillonnages précis. Les deux tableaux figurant ici ont été dressés d'après ce que nous appelons le fichier des statistiques de code de localité. Voici comment est constitué ce fichier:

Au fur et à mesure que les déclarations d'impôt sont traitées dans un centre fiscal, l'ordinateur attribue un code à chaque déclaration suivant sa région géographique déterminée. Ce code est attribué par raccord de l'adresse avec une liste exhaustive de noms d'endroits et de toutes les variations connues et des codes connexes, d'après les définitions du recensement de 1976. Dans certains cas, le même code est attribué à de petits groupes de villages ou de régions rurales lorsque la population de chacun des endroits est trop petite pour être considérée séparément. Les adresses rurales sont codées suivant la localité qui leur fournit le service postal. Par exemple, le code qui délimite Renfrew est attribué à l'adresse R.R. 1, Renfrew. De plus, si les bureaux de poste d'un village desservent aussi un autre village, les deux villages sont codés de la même manière puisque l'attribution du code se fait d'après l'adresse postale. Ce problème est particulièrement évident dans les subdivisions de Toronto, Montréal et Vancouver dans tableau 1. Etant donné que tous les tableaux découlent de ces codes de localité, il n'est pas possible de rassembler les statistiques d'un seul village si les déclarations des contribuables de ce village ont été réunies à celles d'un groupe de villages sous un même code. Ainsi, à cause de la méthodologie utilisée dans la collecte des données, il se peut que les statistiques varient quelque peu des données réelles, ou semblent, dans certaines régions, supérieures ou inférieures à la population réelle.

TABEAU 1—TOUTES LES DÉCLARATIONS, PAR COMTÉ OU DIVISION DE RECENSEMENT ET ENDROIT CHOISI

Dans ce tableau, les données sur les déclarations imposables et toutes les déclarations sont analysées par comté, divisions de recensement et endroit choisi. Pour toutes les déclarations imposables, le nombre, salaires, traitements et commission d'emploi, revenu total et l'impôt total à payer sont perçus pour chaque région. Pour toutes les déclarations, le nombre, salaires, traitements et commission d'emploi et revenu total sont perçus. Pour toutes les déclarations par catégorie de revenu, on décompose aussi le nombre pour chaque région. Les chiffres relatifs à chaque comté ou division de recensement comprennent les chiffres visant chacune des localités choisies du secteur qui sont indiquées immédiatement au-dessous des chiffres relatifs au comté ou à la division de recensement. Les villes qui sont désignées comme étant des régions métropolitaines le sont en conformité des définitions employées dans le recensement de 1976, sauf qu'elles ne comprennent pas les secteurs des comtés adjacents, mais seulement ceux situés à l'intérieur du comté ou de la division de recensement où ils sont situés en majeure partie. Dans certain cas, les régions métropolitaines du recensement ont été subdivisées, comme Halifax et Dartmouth, Montréal, Québec et Lévis, Ottawa et Hull, Toronto et Greater Vancouver.

On trouvera, en tableau 2 de cette Partie, des données concernant le revenu et l'impôt dans le cas de certaines autres villes non comprises dans ce tableau.

TABLE 2—ADDITIONAL LOCALITIES NOT TABULATED ELSEWHERE

The localities shown in this table are additional localities not tabulated in Summary Table 1 of Part 1 or Table 1 of this Part. Some of these cities and towns may also have been included in Table 5 of Part 1. However, the figures will probably vary somewhat as those in Table 5 were derived from the statistical sample while those in this table were derived from the universe.

GENERAL NOTE:

For the 1980 taxation year, changes were made to the locality boundary definitions for the province of Québec to more adequately reflect those designated by the 1976 Census.

TABLEAU 2—CERTAINES LOCALITÉS NON COMPRISES DANS LES AUTRES TABLEAUX

On trouve dans ce tableau certaines localités qui ne sont pas comprises dans le tableau récapitulatif 1 de la Partie 1 ou dans le tableau 1 de la Partie 1. Certaines de ces villes et certains de ces villages peuvent aussi être compris dans le tableau 5 de la Partie 1. Cependant, les données varient probablement un peu, étant donné que celles du tableau 5 découlent d'un échantillonnage statistique, tandis que celles du tableau 2 découlent de l'univers de l'enquête statistique.

NOTE GÉNÉRALE:

Les limites des localités de la province de Québec ont été modifiées pour l'année d'imposition 1980 afin d'être en accord avec celles du Recensement de 1976.

Geographic Statistics

All statistics in this section are derived from the universe rather than a sample.

Money figures may not add to total due to rounding.

Statistiques géographiques

Toutes les statistiques de cette section sont dérivées de toutes les déclarations analysées plutôt que de l'échantillon.

Les montants en dollars ayant été arrondis, il peut arriver qu'en les additionnant, on n'obtienne pas les totaux indiqués.

**TABLE 1 — ANNUAL COLLECTIONS AND COSTS
1950-1981**

This table shows the annual collections of National Revenue, Taxation net of refunds, and the cost of collecting the annual revenues. Collections of income tax from individuals and corporations are made under the Income Tax Act enacted in 1948 which was revised and re-enacted effective for the 1953 and subsequent taxation years. In years prior to the inception of the Income Tax Act, authority was provided for the collection of these taxes under the Income War Tax Act enacted in 1917. Estate taxes were collected under the Estate Tax Act enacted in 1958. Succession duties were collected under the Dominion Succession Duty Act enacted in 1941.

Collections of individual and corporation income tax include Old Age Security Tax for 1952 and subsequent fiscal years. Amounts of individual and corporation income tax collected on behalf of the provincial governments are included in 1962 and subsequent fiscal years. Canada Pension Plan Contributions are included with individual income taxes collected in 1966 and subsequent fiscal years and Unemployment Insurance Premiums beginning 1972.

The following notes describe briefly the items under the various column headings:

Individual Income Tax—Under Section 2 of the Income Tax Act an income tax is levied upon the taxable income of persons resident in Canada at any time during a taxation year. The tax on individuals is levied at rates set forth in Section 117 of the Act. The collections under this heading include amounts deducted at the source or remitted by employers and direct payments of instalments, balances of tax, arrears, etc., by individuals.

The tax collected from individuals in a given fiscal year exceeds the assessed tax payable shown in Part 1 of this book. This is partly due to the differing time periods covered. A fiscal year includes a mixture of more than one taxation year. Collection figures also include revenue from sources not reflected in the Part 1 analysis of tax payable, principally re-assessments of tax subsequent to the initial assessment, tax deductions at the source not claimed on tax returns and assessments of tax on returns processed after the statistical close-off date.

Corporation Income Tax—This is levied under Section 2 of the Act at rates set forth in Section 123. Under Section 196 of the Act, corporations had an election of paying a tax of 15% on their undistributed income. Section 196 of the Act was repealed in 1977. Collections of this tax are reported under the heading of Corporation Income Tax.

**TABEAU 1 — RENTRÉES ANNUELLES ET FRAIS
(1950-1981)**

Ce tableau indique les sommes nettes perçues chaque année par le ministère du Revenu National, Impôt, une fois les remboursements déduits; aussi, les frais de perception des revenus annuels. L'impôt sur le revenu des particuliers et des corporations est perçu en vertu de la Loi de l'impôt sur le revenu édictée en 1948 qui a été refondue et édictée de nouveau pour les années d'imposition 1953 et suivantes. Au cours des années qui ont précédé l'entrée en vigueur de la Loi de l'impôt sur le revenu, ces impôts étaient perçus en vertu de la Loi de l'impôt de guerre sur le revenu édictée en 1917. Les impôts sur les successions étaient perçus en vertu de la Loi de l'impôt sur les biens transmis par décès, édictée en 1958. Les droits successoraux étaient perçus en vertu de la Loi fédérale sur les droits successoraux, édictée en 1941.

Les impôts perçus sur le revenu des particuliers et des corporations comprennent l'impôt de la sécurité de la vieillesse pour les années financières 1952 et suivantes. Les montants de l'impôt perçu sur le revenu des particuliers et des corporations pour le compte des gouvernements provinciaux sont inclus dans les années financières 1962 et suivantes. Les cotisations au Régime de pensions du Canada sont réunies aux impôts sur le revenu des particuliers perçus à l'égard des années financières 1966 et suivantes ainsi qu'aux primes d'assurance-chômage à partir de 1972.

Les remarques suivantes donnent un bref exposé des postes qui figurent sous les titres des différentes colonnes:

Impôt sur le revenu des particuliers—En vertu de l'article 2 de la Loi de l'impôt sur le revenu, un impôt est prélevé sur le revenu imposable des personnes qui résident au Canada à quelque époque dans une année d'imposition. L'impôt sur les particuliers est établi selon les taux énoncés à l'article 117 de la loi. Les recouvrements figurant à ce poste comprennent les montants déduits à la source ou remis par les employeurs et les versements, soldes d'impôt, arriérés, etc., payés directement par des particuliers.

L'impôt perçu des particuliers au cours d'un exercice financier donné dépasse les cotisations d'impôt exigible figurant dans la Partie 1 de cet ouvrage. Cela est attribuable en partie au fait que des périodes différentes sont visées. L'exercice financier embrasse plus d'une année d'imposition. Les chiffres des rentrées comprennent également des recettes provenant de sources non indiquées dans l'analyse de l'impôt exigible, à la Partie 1, principalement les nouvelles cotisations d'impôt établies après la cotisation initiale, les retenues d'impôt à la source non indiquées dans les déclarations d'impôt et les cotisations d'impôt relatives aux déclarations traitées après la date limite du rassemblement des données statistiques.

Impôt sur le revenu des corporations—Prélevé en vertu de l'article 2 de la Loi, aux taux énoncés à l'article 123. En vertu de l'article 196 de la Loi, une corporation peut choisir de payer un impôt de 15% sur son revenu non distribué. L'article 196 de la Loi a été abrogé en 1977. Les recouvrements au titre de cet impôt sont déclarés à la rubrique de l'impôt sur le revenu des corporations.

Excess Profits & Special Taxes—Under this heading appear collections under the Excess Profits Tax Act enacted during World War II. The figures from 1941 to 1952 inclusive relate solely to this Act. Beginning 1967 the Special 5% Refundable Tax payable by corporations and certain trusts is recorded here. Beginning 1981 the Petroleum and Gas Revenue Taxes are recorded here. The Petroleum and Gas Revenue Tax Act imposes an 8% tax on production revenue and resource royalties related to petroleum and gas operations. These taxes are not income taxes, profit taxes or surtaxes. They are levied under a new Act of Parliament. The federal agency charged with the administration of this legislation is the Department of National Revenue, Taxation.

Non-Resident Tax — Under Section 212 of the Act a tax is withheld on payments to non-residents in respect of interest, dividends, rents, royalties, management fees and certain other types of income from Canada. The general rate is 25%, but a rate of 20% applies to dividends from corporations with a degree of Canadian ownership.

Succession Duties and Estate Tax — Under the Estate Tax Act which became effective January 1, 1959 resident estates with aggregate net value over \$50,000 were subject to estate tax. As a result of the 1971 Tax Reform legislation, federal estate taxes have been eliminated.

Succession duties pertain to estates subject to duty under the Dominion Succession Duty Act which preceded the Estate Tax Act.

Total Annual Cost — The cost of collecting the total annual revenues is also shown in this table. These costs include salaries, printing, travelling expenses, stationery, supplies, etc., but exclude building rentals and the rental value of space occupied in Government-owned buildings.

TABLE 1A — ESTIMATED ALLOCATION OF COLLECTIONS FROM INDIVIDUALS, EMPLOYERS AND CORPORATIONS

This table shows the estimated allocation of collections shown in Table 1 under the headings "Individual Income Tax" and "Corporation Income Tax" as between Federal Income Tax, Provincial Income Tax, Old Age Security Tax, Canada Pension Plan Contributions and Unemployment Insurance Premiums. The remaining revenues, Non-Resident Tax and Estate Tax, are not subject to allocation in this manner. Historically, this allocation goes back to the 1952 fiscal year when the Old Age Security Tax began to be collected. Following are brief notes concerning the items shown in this table:

Impôt sur les surplus de bénéfices et impôts spéciaux—A ce poste figurent les recouvrements effectués en vertu de la Loi de taxation sur les surplus de bénéfices édictée pendant la seconde guerre mondiale. Les chiffres des années 1941 à 1952 inclusivement se rapportent seulement à cette dernière loi précitée. A compter de 1967, l'impôt spécial remboursable de 5% que doivent payer les corporations et certaines fiducies est compris dans ce poste. A compter de 1981, les impôts sur les revenus pétroliers sont compris dans ce poste. La Loi sur les revenus pétroliers prévoit un impôt de 8% sur les revenus de production et les redevances pétrolières liés aux exploitations de pétrole et de gaz. Il ne s'agit ni d'impôt sur le revenu, ni d'impôt sur les bénéfices, ni de surtaxe. Cet impôt est prélevé en vertu d'une loi nouvellement adoptée par le Parlement. Revenu Canada, Impôt est l'organisme fédéral chargé d'appliquer cette législation.

Impôt de non-résidents—En vertu de l'article 212 de la loi, un impôt est retenu sur les paiements faits aux non-résidents sous forme d'intérêts, dividendes, loyers, redevances, honoraires de gestion, ainsi que sur certains autres genres de revenus de provenance canadienne. Le taux général est de 25%, mais un taux de 20% s'applique aux dividendes provenant de corporations qui sont possédées dans une mesure quelconque par des Canadiens.

Droits successoraux et impôt sur les biens transmis par décès—D'après la Loi de l'impôt sur les biens transmis par décès, entrée en vigueur le 1^{er} janvier 1959, les successions résidentes dont la valeur nette globale dépassait \$50,000 étaient assujetties à l'impôt sur les biens transmis par décès. Par suite de la législation de réforme fiscale de 1971, les impôts fédéraux sur les biens transmis par décès ont été supprimés.

Les droits successoraux frappent les successions imposables en vertu de la Loi fédérale sur les droits successoraux, loi qui a précédé la Loi de l'impôt sur les biens transmis par décès.

Frais annuels totaux—Le tableau donne aussi les frais annuels de perception qui comprennent notamment les traitements, impressions, frais de voyage, papeterie, fournitures, etc., mais non la location d'immeubles ni la valeur locative des locaux occupés dans les immeubles du gouvernement.

TABEAU 1A — RÉPARTITION ESTIMATIVE DES SOMMES PERÇUES DES PARTICULIERS, DES EMPLOYEURS ET DES CORPORATIONS

Dans ce tableau, les recouvrements qui figurent au Tableau 1 sous les postes «Impôt sur le revenu des particuliers» et «Impôt sur le revenu des corporations» sont répartis de façon estimative entre l'impôt fédéral sur le revenu, l'impôt provincial sur le revenu, l'impôt de la sécurité de la vieillesse, les cotisations au Régime de pensions du Canada et les primes d'assurance-chômage. Les autres recettes, c.-à-d. l'impôt de non-résidents et l'impôt sur les biens transmis par décès, ne sont pas ainsi assujettis à la répartition. Historiquement, cette répartition remonte à l'année financière 1952 alors que l'impôt de la sécurité de la vieillesse a commencé à être perçu. Voici quelques remarques concernant les postes figurant dans ce tableau:

Federal Income Tax—This represents the federal portion of individual and corporation income taxes.

Provincial Income Tax—This is the provincial income tax collected on behalf of those provinces which have agreements with the federal government under the Federal-Provincial Fiscal Arrangements Act. The province of Quebec is not included since it collects its own income tax from both individuals and corporations, and the province of Ontario collects its own income tax from corporations.

The rates of provincial income tax for individuals for the 1980 taxation year were 58% of taxable income for Newfoundland, 52.5% for Prince Edward Island, 52.5% for Nova Scotia, 55.5% for New Brunswick, 54% for Manitoba, 44% for Ontario, 53% for Saskatchewan, 38.5% for Alberta, 44% for British Columbia, 43% for the Northwest Territories, and 43% for Yukon.

For corporations the rates were 10% of taxable income for Prince Edward Island, 12% for Nova Scotia and New Brunswick, 14% for Newfoundland and Saskatchewan, 15% for Manitoba and British Columbia, 11% for Alberta, and 10% for the Northwest Territories.

Old Age Security—Tax receipts and, from January 1, 1972, amounts required to be credited to the Old Age Security Fund under Section 25 (1)(a) of the Old Age Security Act.

Canada Pension Plan Contributions—These contributions are collected from employees, employers and self-employed persons. Earnings in 1980 above \$1000, up to a ceiling of \$11,800 a year, were subject to contributions. The rate is 1.8% of annual earnings for employees, with an equivalent matching contribution from the employer; for self-employed persons, 3.6% of annual earnings. Self-employed persons who earn less than \$1000 in a year are exempted from coverage.

Unemployment Insurance Premiums—These are collected from employees and employers and remitted by the employer.

Impôt fédéral sur le revenu—Ceci représente la tranche fédérale de l'impôt sur le revenu des particuliers et des corporations.

Impôt provincial sur le revenu—Il s'agit de l'impôt provincial sur le revenu qui a été perçu pour le compte des provinces ayant signé des accords avec le gouvernement fédéral en vertu de la Loi sur les arrangements fiscaux entre le gouvernement fédéral et les provinces. La province de Québec n'est pas incluse puisqu'elle perçoit son propre impôt sur le revenu des particuliers et des corporations; la province d'Ontario perçoit son propre impôt sur le revenu des corporations.

Les taux de l'impôt provincial sur le revenu des particuliers pour l'année d'imposition 1980 étaient 58% du revenu imposable pour Terre-Neuve, 52.5% pour l'Île du Prince-Edouard, 52.5% pour la Nouvelle-Ecosse, 55.5% pour le Nouveau-Brunswick, 54% pour le Manitoba, 44% pour l'Ontario, 53% pour la Saskatchewan, 38.5% pour l'Alberta, 44% pour la Colombie Britannique, 43% pour les Territoires du Nord-Ouest, et 43% pour le Yukon.

Dans le cas des corporations, les taux étaient 10% du revenu imposable pour l'Île du Prince-Edouard, 12% pour la Nouvelle-Ecosse et le Nouveau-Brunswick, 14% pour Terre-Neuve et Saskatchewan, 15% pour le Manitoba et la Colombie Britannique, 11% pour l'Alberta et 10% pour les Territoires du Nord-Ouest.

Sécurité de la vieillesse—Les recettes fiscales et, à compter du 1^{er} janvier 1972, les montants devant être crédités à la Caisse de sécurité de la vieillesse en vertu de l'article 25(1)(a) de la Loi sur la sécurité de la vieillesse.

Cotisations pour le Régime de pensions du Canada—Ces cotisations sont perçues des employés, des employeurs et des personnes établies à leur propre compte. En 1980, les gains supérieurs à \$1000 mais n'excédant pas \$11,800 par année étaient assujettis aux cotisations. Le taux est de 1.8% des gains annuels de l'employé, une cotisation égale étant versée par l'employeur; dans le cas des personnes établies à leur propre compte, le taux est de 3.6% de leurs gains annuels. Les personnes établies à leur propre compte qui gagnent moins de \$1000 dans une année ne participent pas au Régime pour cette année-là.

Les contributions au plan d'assurance chômage—Elles sont perçues des employeurs et des employés et sont remises par l'employeur.

(1) Assessed taxable income does not equal total income less total exemptions and deductions because some returns in which exemptions and deductions exceed the total income are taxable (in respect of lump sum payments) but the taxable income is recorded as zero in such instances.

Note: See page 229 and following for a description of this table and of all items of data.

(1) Le revenu imposable établi n'est pas égal au revenu total moins toutes les exemptions et les déductions parce que certaines déclarations, dans lesquelles les exemptions et les déductions dépassent le revenu total, sont assujetties à l'impôt (à l'égard de paiements forfaitaires), mais le revenu imposable est indiqué comme étant néant dans de tels cas.

Exemption pour autres personnes (A) Père, mère, grands-parents, frères ou sœurs (et ceux du conjoint) à charge résidant au Canada (B) Tantes ou oncles (et ceux du conjoint)

Donner les précisions ci-après et déduire le montant réel dépensé en 1980 pour subvenir aux besoins de chaque personne à charge, mais sans dépasser le maximum autorisé, établi d'après l'âge et le revenu net de la personne à charge, de la façon suivante:

Née en 1963 ou après—Si le revenu net n'était pas supérieur à \$1,910, la déduction maximale est de \$540.

—Si le revenu net se situait entre \$1,910 et \$2,990, la déduction maximale est de \$540 moins la moitié de la fraction du revenu net qui dépasse \$1,910.

Née en 1962 ou avant—Si le revenu net n'était pas supérieur à \$2,000, la déduction maximale est de \$990.

—Si le revenu net se situait entre \$2,000 et \$2,990, la déduction maximale est de \$990 moins la fraction du revenu net qui dépasse \$2,000.

Si quelqu'un d'autre a aidé à subvenir aux besoins d'une personne à charge inscrite ici, le montant global compté par vous et cette autre personne ne doit pas dépasser le montant maximal établi de la façon exposée ci-dessus. Aucune déduction ne peut être demandée ici pour a) une personne à charge née en 1958 ou avant qui n'est pas atteinte d'infirmité physique ou mentale (à moins que cette personne à charge ne soit un frère ou une sœur qui fréquente l'école ou l'université à plein temps) ou b) une personne à charge pour laquelle vous avez demandé l'équivalent de l'exemption de marié(e).

Déduction pour amortissement (Guide, nos 14B et 15)

Si l'espace fourni est insuffisant, annexer un état.

Annexe 8

Dans certains cas, un agriculteur ou un pêcheur peut demander une déduction pour amortissement selon la méthode spéciale de l'«amortissement linéaire». On trouvera des détails complets dans les guides d'impôt sur le revenu des agriculteurs et des pêcheurs de 1980.

Si l'on n'emploie pas la méthode de l'«amortissement linéaire», il faut remplir le tableau ci-après conformément aux indications suivantes:

- a) Les biens doivent être groupés en catégories et l'amortissement doit être basé sur le coût de tous les biens dans la catégorie, moins les sommes déduites au cours des années antérieures pour l'amortissement de ces biens. Utiliser une ligne distincte pour chaque catégorie prescrite de biens.

- b) Ne pas inclure le coût du fonds de terre dans la colonne (3).**

- c) La somme à inscrire dans la colonne (4) relativement à tout bien dont il a été disposé ne doit pas excéder son «coût en capital». Si le produit de la disposition d'un bien amortissable est supérieur soit au coût en capital du bien, soit à sa juste valeur marchande au 31 décembre 1971 (le plus élevé des deux montants), l'excédent doit être inscrit à l'Annexe 2.
- d) Annexer des états et y fournir des détails sur les sommes inscrites dans les colonnes (3) et (4), y compris le genre de bien et le coût ou le produit de la disposition, selon le cas.
- e) Inscrire dans la colonne (6) le taux qu'on désire utiliser, sans excéder le taux maximal prescrit, et appliquer ce taux au montant de la colonne (5). Ne pas appliquer le taux maximal, si cela n'est pas avantageux.
